Subject: Conditional Use-Major Permit for WAT BUDDHAMETTA MAHABARAMEE Temple at 6300 Martin Bluff Road (GPC Case No. 17-10-CU)

REQUEST:

The Planning Department has received a request from Pisit Opnititanit representative of Wat Buddhametta Mahabaramee Temple, for a Conditional Use-Major Permit that would allow a Church or Place of Worship in a C-2 Community Commercial Zoning District at 6300 Martin Bluff Road, PID #81804085.050. The application fee of \$250 was paid on June 12, 2017. All public notice requirements have been met.

DISCUSSION:

The following addresses the review criteria for a Major Conditional Use outlined in Section 4.17.5 of the UDO.

- A. The proposed use is compatible with the character of development in the vicinity relative to density, bulk and intensity of structures, parking, and other uses.

Staff Finding: The proposed use as a Buddhist Temple serves as a residence for the monks and a place of worship for the congregation. Staff finds that this use will be compatible with the properties in the vicinity due to the fact there are both Residential and Commercial existing surrounding uses.

- B. Any possible detrimental effects might occur as a result of the Conditional Use to the continued use, value, or development of properties in the vicinity.

Staff Finding: There is no evidence to indicate the proposed use will negatively affect the property values, or cause a detriment to the surrounding properties.

- C. Whether or not the proposed use will adversely affect vehicular or pedestrian traffic in the vicinity.

Staff Finding: The applicant states that the Temple will be servicing approximately thirty (30) members with adequate parking. Staff finds that there is an existing circular drive which is of adequate size to accommodate the amount of vehicles (10) required by the Unified Development Ordinance for this use according to the applicant's statement of the number of members of the congregation.

- D. If the proposed use can be accommodated by existing or proposed public services and facilities including, but not limited to, water, sanitary sewer, streets, drainage, police and fire protection, and schools.

Staff Finding: The proposed use can be accommodated by existing public services and facilities.

- E. If the proposed use in harmony with the Comprehensive Plan.

Staff Response: Yes, the Comprehensive plan proposes Mixed Use Residential in this area. The proposed use consists of both a Residential Dwelling and a place of Worship which is allowed with a "Conditional Us" in the Unified Development Ordinance.

- F. If the proposed use listed in the list of possible Conditional Uses in the particular Zoning District.

Staff Finding: Yes, according to the Unified Development Ordinance, a "Church or Place of Worship" is allowed with a "Conditional Use Major" in a C-2 Community Commercial District.

- G. Whether the proposed use will not be hazardous, detrimental, or disturbing, to present surrounding land uses due to noises, glare, smoke, dust, odor, fumes, water pollution, vibration, electrical interference, or other nuisances.

Staff Finding: There is no evidence that the proposed use poses a hazardous, detrimental or disturbing affect to present surrounding uses. .

- H. Whether the use conforms to all district regulations for the applicable district in which it is located, unless other provisions are specifically set forth in the application.

Staff Finding: The proposed use will conform to district regulations. This will be ensured by the Planning Department upon review of final submittals before permits are issued.

DETERMINATION OF APPLICABLE LAW:

1. The UDO defines conditional uses as specific uses which are enumerated in each zoning district and which because of their nature are not allowed by right but may be allowed after the required review process. The City may specify certain conditions as necessary to make the use compatible with other uses in the same district. Conditional uses are issued for uses of land and uses designated “Conditional Uses-Major” are transferable from one (1) owner of land to another.

The UDO further defines Conditional Uses-Major as uses that are not allowed by right but require a recommendation by the Planning Commission and the approval of the City Council. Additionally, if the conditional use is transferred to a new owner, the new owner must submit a letter to the Economic Development Director agreeing to the current terms and conditions before a business license may be issued.

2. Conditional Uses-Major requires a public hearing before the Planning Commission and approval by the City Council (Section 4.14 of the UDO).

RECOMMENDATION:

Planning Commission and Staff finds that the proposed use may be compatible and harmonious with the C-2 Neighborhood Commercial District and recommends approval with the following conditions:

1. The church services/events/meetings shall be limited to the number of occupants designated by the City of Gautier Fire Marshal.
2. ADA accessible parking shall be installed which meets the requirements of the City of Gautier’s Unified Development Ordinance and The Americans with Disabilities Act.
3. Any existing business signage which does not comply with the Unified Development Ordinance shall be removed.
4. Separate permits will be applied for and obtained for any “Special Event” held on the property by the occupants as required by the Unified Development Ordinance. Community Outreach Activities such as food preparation services are not considered a “Special Event”.

The City Council may:

1. Approve the Conditional Use-Major Permit with the Conditions listed above; or
2. Approve the Conditional Use-Major Permit with changes; or
3. Deny the Conditional Use-Major Permit.

ANSWERS TO CONDITIONAL USE CRITERIAL FOR APPROVAL

1. According to the property information provided by Jackson County, the proposed property owned by David & Nina Mitchell is classified as commercial and it was previously used as business office. This property has been leased year by year by the petitioner for use as a temporary office while its directors are looking for an appropriate place to form a permanent Buddhist temple in Jackson County, Mississippi. Meanwhile, a temporary center is required for gathering the faithful Buddhists, doing religious services, and raising funds to accomplish the mission.
2. A Buddhist temple is usually the place where the Buddhist monks live in and perform religious service. According to the location and interior layout of the leased building, there are three bedrooms, two full bathrooms, one living room, one dining room, and a kitchen. Currently, two bedrooms are allocated as the bedroom for the monks and another bedroom is reserved as the meditation room. The living room is organized as the worship place where congregation and services are performed. There is a storage next to the building and the unpaved parking area is in front of the building. There are two entrances at each corner of the site and driveway in front of the building. The temple is currently servicing about 30 members with adequate parking lots. See the pictures enclosed.
3. The proposed use of the facility will certainly not affect neighboring values or pose a real or perceived threat to citizens because Buddhism is well-known as a peaceful religion that aims at educating the faithful devotees in higher morality, concentration, and wisdom as well as creating good relationships with other religions. The directors have been creating a good connection with the neighbors by inviting them to observe the temple's activities.

6. The proposed use is exactly in harmony with the comprehensive plan because the site is peaceful and suitable to forming the religious facility with appropriate spaces required for congregation and religious services.
7. The proposed property has been used as the Buddhist temple, so there are no hazardous or detrimental materials in use. Although there will be some outdoor activities and cooking in the particular events at the temple, the use of hazardous materials are prohibited and the temple has conformed with lawful management

8. The petitioner has a firm confidence that the use of the proposed property will certainly conform to all district regulations determined by the district where the property is located and/or other provisions. The directors are committed to looking for legal advice and assistance from the public offices related to the proper use of the facility and the organization of the temple's religious services and events to ensure that everything will be compliant with local, state, and federal regulations.

CONDITIONAL USE NARRATIVE

The proposed property will be principally for religious purposes to initialize the permanent construction of the Buddhist temple and meditation center in Jackson County, Mississippi. The facility is the monastery where the Buddhist monks reside and religious services are performed. Religious services are usually done inside the facility. The temple's religious services are normally held on Sundays and special services are conducted once a month. These service include worship, chanting, meditation, presentation of gifts, donation, preaching, counselling, and blessing. The temples opens to the public seven days a week from 8:00 am to 5:00 pm. Subscription of membership is not required for joining the temple's services and events. Additionally, no membership fee is collected monthly and the temple solely depends on donation from the faithful Buddhists and generous donors. Free food and drinks are served to the participants and the public who participate in the temple's services and events.

Generally, the process and time of the temple's religious services and events are as follows:

	The sermon is given to the devotees.

1:30 pm – 2:30 pm Counselling and discussion about Buddhist principles and spiritual development are opened to the public.

3:00 pm End of Service.

However, the temple may occasionally organize the outdoor events. The temple's directors in corporation with community members have planned to raise funds for affording its own property by organizing Thai Festival two times a year and setting up the food booths for charity every Sunday. This plan will bring the community members together and create a good relationship with the neighboring communities through the introduction of Thai food and culture. Food booths and exhibition of Thai culture will be organized by the temple's members and they will be supervised by the temple's directors for legal compliance and public safety.

The temple is committed to introducing the Buddhist principles and Thai culture as well as creating peace to the community and conforming to local, state, and federal laws.

Rental Agreement

THIS AGREEMENT made this 14 day of July 2016 by and between Dawn Mitchell herein called "LANDLORD", and _____, herein called "TENANT".

LANDLORD hereby agrees to rent to TENANT the real property located in the County of Shelby City of Gallatin, State of MS, described as follows: _____ commencing on the 14th day of July, 2016 and monthly thereafter for up to twelve (12) months.

LANDLORD rents the described premises to TENANT on the following terms and conditions.

1. RENT:

TENANT agrees to pay LANDLORD as base rent the sum of \$ 1000.00 per month, due and payable monthly in advance on the first day of each month during the term of this agreement. Rent must be received no later than 5:00 PM on the first day of the month. Neither ill health, loss of job, financial emergency or other reasons will be accepted for late payment of rent.

2. SECURITY DEPOSIT:

TENANTS hereby agree to pay a security deposit of \$ 950.00 on or before _____ or RENTAL AGREEMENT is canceled and tenants must vacate premises. The security deposit will be refunded upon vacating, return of the keys to LANDLORD and termination of this contract according to the terms herein agreed. This deposit will be held to cover any possible damage to the property. No interest will be paid on this money and in no case will it be applied to back or future rent. It will be held intact by LANDLORD until at least 15 working days after TENANTS have vacated the property. At that time LANDLORD will inspect the premises thoroughly and assess any damages and/or needed repairs. This deposit money minus any necessary charges for repairs, cleaning, unpaid rent, etc., will then be returned to TENANT with a written explanation for deductions after they have vacated the property.

3. RENTAL COLLECTION CHARGE:

TENANT hereby acknowledges that late payment will cause LANDLORD to incur costs not contemplated by this RENTAL AGREEMENT, the exact amount of which will be extremely difficult to ascertain. In the event rent is not received by 11:59 PM on the 1st day of the month (regardless of cause including dishonored checks) then by 12:01 AM on the 2nd day of the month the Tenant will be charged a late fee of \$25.00 for each day that rent is late. Neither ill health, loss of job, financial emergency or other reasons will be accepted for late fee payment. If TENANT has not paid the rent and all late fees by the 10th of the month, then TENANT agrees that LANDLORD will serve eviction and TENANT will have to vacate the premises immediately.

4. DISCOUNT PROGRAM:

As an incentive to the TENANT to pay his/her rent payments AHEAD OF TIME, and for being responsible for all minor maintenance and repairs, a discount in the amount of \$ 50.00 may be deducted from the above rental sum each month. This discount will automatically be forfeited if the TENANT fails to perform as outlined in the RENTAL AGREEMENT.

5. PAYMENT OF RENT:

The initial payment of rent and security deposit under the terms of this RENTAL AGREEMENT MUST BE MADE IN CASH. Thereafter monthly rent payments may be paid by check until the first check is dishonored and returned unpaid. Time is of the essence and no excuses will be accepted. Rent shall be made payable to David Mitchell and delivered to LANDLORD by mail to 5325 Gautier Vancleave Rd. Vancleave MS, 39565. Any rents lost in the mail will be treated as if unpaid until received by owner.

6. BAD CHECK SERVICING CHARGE:

In the event TENANTS check is dishonored and returned unpaid for any reason to LANDLORD, TENANT agrees to pay as additional rent the sum equal to five percent (5%) of the monthly rent. If for any reason a check is returned or dishonored, all future rent payments will be cash or money order only.

7. APPLIANCES:

The house is equipped with stove, and dishwasher. The above rental payment specifically EXCLUDES all appliances of any kind! These appliances are there solely at the convenience of the LANDLORD, who assumes no responsibility for their operation.

8. USE:

The TENANTS agree to use the premises only as a residence for themselves and their children.

9. SMOKING:

There shall be NO CIGARETTE/CIGAR SMOKING Or INCENSE/CANDLE BURNING allowed inside the rented premises. Violation of this will result in an eviction of rented premises and also a cleaning fee of \$150.00

10. NON-ASSIGNMENT OF RENTAL AGREEMENT:

Resident agrees not to assign this agreement, not to Sub-Let any part of the property, nor to allow any other person to live therein other than as named in Paragraph 8 without first requesting permission from the LANDLORD and paying the appropriate surcharge. Further, that covenants contained in this RENTAL AGREEMENT, once breached, cannot afterward be performed; and that lawful proceedings may be commenced.

11. LEGAL OBLIGATIONS:

TENANTS hereby acknowledge that they have a legal obligation to pay their rent on time each and every month regardless of any other debts or responsibilities they may have. They agree that they will be fully liable for any back rent owed. They also acknowledge defaulting on this RENTAL AGREEMENT could result in judgment being filed against them and a lien being filed against their current and future assets and/or earnings.

12. ATTORNEY'S COST:

If court action is sought by either party to enforce the provisions of the RENTAL AGREEMENT, attorney's fees and costs may be awarded to the prevailing party in the court action.

13. REPAIR POLICY:

The TENANTS hereby acknowledge that they have been informed that the LANDLORD and/or his agents are not always available to provide support services to TENANTS. If a problem arises that should cost \$50.00 or less to repair, then the TENANTS are expected to deal with it themselves or lose the discount for that month.

If a problem arises that will cost more than \$50.00 to repair then the TENANTS must get in touch with LANDLORD as soon as possible, between 9AM. and 5PM. on Monday thru Friday. After normal business hours TENANTS may leave a message and someone will get back to you as soon as possible. Under no circumstances will LANDLORD be responsible for any improvements or repairs costing more than \$50.00 unless the TENANTS were given written authorization to make repairs or improvements in advance.

TENANT agrees to meet all TENANTS obligations as spelled out in MS state law, including but not limited to

Pro-active Retail Recruitment

The most important service we provide is pro-actively recruiting **the developers and tenant reps** to leverage the identified target retailers/restaurants. Our team is also tasked with communicating and providing assistance to the local property owners and commercial real estate professionals in the City of Gautier while also keeping the primary Gautier contacts updated on the progress of our recruitment efforts.

Upon completion of the research phase of our engagement, the r360 LLC team will create an online account through our BASECAMP platform, available to the appropriate contacts in Gautier to access all research, analysis, and the strategic plan.

Portfolio Review - We have identified retailers and developers looking to aggressive expand their market presence regionally and nationally. We understand the parameters set by retailers when reviewing potential new locations. We have a roster of developers who are looking to replicate previous developments in similar communities across appropriate geographic regions. r360 LLC meets with these retailers and developers in a variety of settings - corporately, regionally, at ICSC functions or in their offices - to position opportunities across our engaged city portfolio down to the specific sites meeting their criteria. Extensive analysis and preparation prior to the Portfolio Review allow meetings to focus on deal making in addition to exchanging information. Retailers and developers have told us that this is the most productive use of their time and their preferred way to discuss opportunities and negotiate deals.

An r360 LLC Team Member will be designated as the Primary point of contact between the appropriate city officials and r360 LLC. The Client Manager's responsibilities include:

1. Communication with the Client
2. Communication with local property owners, developers and brokers
3. Updating and Maintaining the City of Gautier Basecamp account
4. Responding to On-Demand research report requests

6. Updating the Focus Property List
7. Updating the Retail Target List
8. Basecamp updates in real time as new information becomes available
9. Responding to specific research and site information requests from developers and tenant reps

The r360 LLC Research and Marketing Team Members will develop marketing materials to be used at ICSC Conferences. This group will also be involved with responding to custom retail research requests related to our Gautier engagement.

Senior management of r360 LLC will be involved in all aspects of the engagement and will participate in the appropriate meetings related to retail development prospects.

WHEREAS, the Applicant has agreed to retain title to the capital improvements and has requested MDA to finance a portion of the cost associated with the development of these improvements, more particularly described in Item 2 of Annex A (the “Project”); and

WHEREAS, pursuant to the Act and the guidelines adopted by MDA under the Act (the “Guidelines”), the Applicant has filed an application (the “Application”) with MDA for a loan to be used for the development of the Project, more particularly described in Item 2 of Annex A (the “Project”); and

WHEREAS, based upon the Application and other relevant factors, MDA has agreed to provide the Applicant with a loan under the ACT in the amount set forth in Item 3 of Annex A (the “Loan”) under the terms and conditions set forth in Item 4 of Annex A, in order to fund, in part, and develop the Project by the Applicant; and

WHEREAS, to secure the payment of the Loan, the Applicant has authorized, executed, and delivered the Note (as hereinafter defined) to MDA.

NOW, THEREFORE KNOW ALL MEN BY THESE PRESENTS, THIS LOAN AGREEMENT WITNESSETH:

That the parties hereto, intending to be legally bound hereby and in consideration of the mutual covenants hereinafter contained, do hereby agree as follows:

Subject to the provisions of this Agreement, the Act, the application, and the Guidelines, and upon execution of this Agreement, the Note and any other documents required by MDA to secure the Applicant’s repayment of the Loan, MDA shall pay the proceeds of the Loan unto the Applicant in order to finance, in part, the Project. The Applicant can submit only one request for cash per month to MDA, and the total amount of requested funds for the project cannot exceed the maximum loan amount. The amount of the request can only be for eligible costs on a current cash needs basis. All loan funds must be expended within two years from the date of the loan or the funds shall be recalled unless prior written approval is obtained from MDA.

SECTION 2. *Loan Payments and the Note.* All payments payable by the Applicant under this agreement and the Note (the “Loan Payments”) are due and payable at the times and in the amounts set forth in Item 4 of Annex A. MDA directs the Applicant, and the Applicant agrees to pay to MDA, at the address set forth in Section 9 below, all payments payable by the Applicant pursuant to this Agreement.

Failure of the Applicant to meet its repayment obligations shall result in the forfeiture of sales tax allocation and/or homestead exemption reimbursement in an amount sufficient to repay obligations due pursuant to Section 57-1-303(3) of the Act.

The Applicant shall execute the Note to evidence its obligation to make the Loan Payments and other sums payable by the Applicant hereunder.

It is understood and agreed that all Loan Payments by the Applicant under this Agreement and the Note shall be absolute and unconditional and shall not be subject to any defense (other than payment) or any right of set-off, counterclaim or recoupment arising out of any breach by MDA, or the State of any obligation to the Applicant, whether hereunder or otherwise, or out of any indebtedness or liability at anytime owing to the Applicant by MDA or the State.

Re: Gautier Public Defender Position

Dear Josh:

Please find attached hereto my resume which I am submitting in application for the part-time Municipal Court Public Defender position with the City of Gautier. I have substantial experience with criminal law, both misdemeanor and felony, and am familiar with the new court rules and obligations being imposed upon municipal courts in Mississippi. For the past 4 years, I have assisted clients charged with criminal offenses in the municipal courts in Jackson and Harrison Counties, the justice courts in Jackson and George counties, and the circuit courts in Jackson, George, and Harrison counties, representing them on misdemeanor charges, traffic offenses, preliminary hearings on criminal offenses, expungements, and all aspects of trial litigation pertaining to felony criminal charges. I also have prior municipal and felony public defender experience as well as over 12 years of experience as an Assistant District Attorney. If hired, I can draw on this experience to serve the Gautier community in the representation of indigent persons as a Municipal Public Defender on both misdemeanor and felony cases. My background, training, and experience in criminal law and familiarity with the municipal court system would allow me to immediately hit the ground running and makes me an excellent choice for the Gautier public defender position.

If hired, I would be available for court weekly and be on call as needed. The salary I am seeking is \$ 750.00 to \$ 800.00 per month plus PERS. I would decline the insurance, so the City would not have to cover any insurance. I would appreciate it if you would forward my letter of application and resume to the mayor, city council, and any hiring committee for consideration. I would like to come for an interview and discuss my qualifications for the position and answer any questions you may have. If there is any additional information you or the City require, I would appreciate you letting me know.

Sincerely,

Tanya Hasbrouck

MEMORANDUM**

To: Paula Yancey, City Manager
From: April Havens, Grants Administrator
Date: 08/17/2017
Subject: NRCS Emergency Watershed Protection Program Grant Agreement and Necessary Documents

REQUEST:

The Grants and Projects Administrator requests City Council authorization to enter into an Emergency Watershed Protection Program grant agreement with the U.S. Department of Agriculture's Natural Resources Conservation Service and to provide and execute any and all documents necessary to obtain NRCS grant funds, including but not limited to the NRCS-ADS-78 form, title of opinion, operation and maintenance agreement, and operation and maintenance plan.

BACKGROUND:

The Emergency Watershed Protection Program (EWP) was established by Congress to respond to emergencies created by natural disasters. The EWP Program is designed to help people and conserve natural resources by relieving imminent hazards to life and property caused by floods, fires, drought, windstorms, and other natural occurrences. The U.S. Department of Agriculture's Natural Resources Conservation Service (NRCS) administers the EWP Program.

The City was notified via email on May 5, 2017 that it had received an estimated \$589,640 in Emergency Watershed Protection Program grant funds for drainage work in various locations across the City. New EWP guidelines have implemented strict policies on timelines for completion. The City has less than 220 days to complete all projects.

Areas approved for drainage work include:

- 1) South of White Wood Drive, from Pine Dale Lane to Rockvale Drive.
- 2) Along the conveyance just east of Shell Landing Boulevard, from Highway 90 south to the railroad tracks.
- 3) Along the conveyance just east of Highway 57, from Highway 90 south to Old Spanish Trail.
- 4) South of Old Shell Landing Road, from near house number 2116 to the end of the road.
- 5) Along the west side of Oxford Drive.
- 6) Along the conveyance just southeast of the intersection of Ladnier Road and Service Road, south to the railroad tracks.
- 7) Along the conveyance east of Johnston Road (behind Thomas Transmission), south to Highway 90.

DISCUSSION:

This formal grant agreement was received after the e-mailed award notification. It, along with various other forms and documents, must be completed and submitted to move the project forward.

RECOMMENDATION:

The Grants and Projects Administrator recommends that City Council grant authorization to enter into an Emergency Watershed Protection Program grant agreement with the U.S. Department of Agriculture's Natural Resources Conservation Service and to provide and execute any and all documents necessary to obtain NRCS grant funds, including but not limited to the NRCS-ADS-78 form, title of opinion, operation and maintenance agreement, and operation and maintenance plan.

The City Council may:

- 1) Approve the grant agreement and allow execution of the required documents as presented; or
- 2) Not approve the grant agreement and allow execution of the required documents as presented.

**EMERGENCY WATERSHED PROTECTION PROGRAM (EWPP)
STATEMENT OF WORK**

PROJECT: Jackson County, Mississippi, Emergency Watershed Protection (“EWP”) FY2016 Project #5269 – Locally Led with Technical and Financial Assistance

I. PURPOSE

The purpose of this agreement is to provide financial and/or technical assistance to implement recovery measures that, if left undone, pose a risk to life and/or property. The U. S. Department of Agriculture, Natural Resources Conservation Service is hereinafter referred to as the “NRCS” and the City of Gautier is hereinafter referred to as the “Sponsor.”

II. DESCRIPTION OF PROJECT(S) AND ESTIMATED COSTS

The design and installation of EWP measures are detailed in the individual damage survey report (DSRs) and listed below:

Damage Survey Report (DSR) No.	Description	Estimated Construction Cost
280591601	Frontage Road	\$589,640.00
Total Estimated Construction Cost		\$589,640.00

A. The individual Damage Survey Report(s) (“DSR”) is established through discussions between the Sponsor and NRCS. It defines the site(s), work to be completed, and estimated construction costs for this project.

B. It is agreed that the total estimated construction cost are: \$589,640.00. Based on this estimate:

1. NRCS will contribute Financial Assistance Funds (“FA”) in the amount of \$442,230.00 (up to 75 percent of total construction costs) as reimbursement to the Sponsor for approved on-the-ground construction costs. Construction costs are associated with the installation of the project measures including labor, equipment, and materials.
2. NRCS will contribute Technical Assistance Funds (“TA”) in the amount of \$44,223.00 (up to 7.5 percent of total construction costs) as reimbursement for technical and administrative costs directly charged to the project. Technical and administrative costs are associated with project design and development of construction drawings and specifications; soliciting, evaluating, awarding a administering a contract, including verifying invoices and recording keeping; development of operations and maintenance plans; development and implementation of quality assurance and inspection plans. While NRCS can reimburse 100 percent of these costs (no Sponsor required cost share) up to 7.5

percent of the total construction costs, it is possible that technical and administrative costs will exceed this amount, requiring the Sponsor to contribute resources to complete technical and administrative work.

3. The Sponsor will contribute funds in the amount of \$147,410.00 (25 percent of the total construction costs) in either direct cash expenditures, the value of non-cash materials or services, or in-kind contributions. The value of any in-kind contribution shall be agreed to in writing prior to implementation.

III. RESPONSIBILITIES OF THE PARTIES

A. Sponsor will:

1. Accomplish construction of the EWP project measures by contracting, in-kind construction services, or a combination of both.
2. Ensure and certify by signing this agreement that its cost share obligation is from a non-Federal source.
3. Designate a project liaison to serve between the Sponsor and NRCS and identify that person's contact information with this executed agreement. Any change in the project liaison during the terms of this agreement must be immediately communicated to NRCS.
4. Appoint a contracting officer and an authorized representative who will have authority to act for the contracting officer, listing their duties, responsibilities, and authorities. Furnish such information in writing to the NRCS State Conservationist.
5. Comply with the terms and conditions of this agreement and the attached general terms and conditions except those that are not applicable to State and local governments.
6. Acquire and provide certification to NRCS that real property rights (land and water), permits and licenses in accordance with local, state, and Federal laws necessary for the installation of EWP project measures have been obtained at no cost to NRCS prior to construction. This includes any rights associated with required environmental mitigation. Sponsors shall provide such certification on Form NRCS-ADS-78, Assurances Relating to Real Property Acquisition. Sponsors shall also provide an attorney's opinion supporting this certification. Costs related to land rights and permits are the Sponsor's responsibility and ineligible for reimbursement.
7. Accept all financial and other responsibility for excess costs resulting from their failure to obtain, or their delay in obtaining, adequate land and water rights, permits and licenses needed for the Project.
8. Provide 25% of the actual, eligible and approved construction cost. These costs may be in the form of cash, in-kind construction services, or a combination of

both. Final construction items that are eligible construction costs will be agreed upon during the pre-design conference. These costs consist of costs from contracts awarded to contractors and eligible Sponsor in-kind construction costs for materials, labor, and equipment. The Sponsor shall provide NRCS documentation to support all eligible construction costs. Construction costs incurred prior to the Sponsor and NRCS signing this agreement are ineligible and will not be reimbursed.

9. Be responsible for 100 percent of all ineligible construction costs and 100 percent of any unapproved upgrade to increase the level of protection over and above that described in the DSR.
10. Account for and report FA and TA expenditures separately in order for expenses to be eligible for reimbursement. NRCS funding for this project is provided to the Sponsor in two separate NRCS funding accounts, one for TA and one for FA, requiring this separation.
11. Prepare design, construction specifications, and drawings in accordance with standard engineering principles that comply with NRCS programmatic requirements; and/or contract/install the designed construction. Any design services will be by a professional registered engineer. Sponsor will obtain NRCS review and concurrence on the design, construction plans, and specifications. The Sponsor must ensure description of work is reviewed, concurred, and approved by NRCS. A copy of the final signed and sealed plans and specifications shall be provided to NRCS.
12. Contract for services and construction in accordance with the Code of Federal Regulations (CFR), 2 CFR § 200.317 through 200.326, applicable State regulations, and the Sponsor's procurement regulations, as appropriate. (See general terms and conditions attached to this agreement for a link to the CFR.) In accordance with 2 CFR § 200.326, contracts must contain the applicable provisions described in Appendix II to Part 200. Davis-Bacon Act would not apply under this Federal program legislation.
13. The contracts for design services and construction described in this Agreement shall not be awarded to the Sponsor or to any firm in which any Sponsor's official or any member of such official's immediate family has direct or indirect interest in the pecuniary profits or contracts of such firms. Reference 2 CFR § 200.318 regarding standards of conduct covering conflicts of interest and governing the performance of its employees engaged in the selection, award, and administration of contracts.
14. For contracts, provide NRCS a copy of solicitation notice, bid abstract, and notice of contract award, or other basis of cost and accomplishment.
15. For in-kind construction services (materials, labor, and/or equipment supplied by the Sponsor), develop a Plan of Operations describing the construction services to be performed including estimated quantities and values. The Plan of

Operations shall be concurred in by NRCS at the pre-design conference. In-kind construction services for equipment shall not exceed published FEMA equipment rates unless otherwise documented and concurred in advance by NRCS.

16. The following documentation is required to support the Sponsor's request for reimbursement of in-kind construction services:
 - a. Invoices covering actual costs of materials used in constructing the eligible EWP project measures.
 - b. Records documenting the type, quality, and quantities of materials actually used in constructing the eligible EWP project measures.
 - c. Daily time records for each employee showing name, classification, wage rate, hours, and dates actually employed for constructing the eligible EWP project measures.
 - d. Equipment operating records showing the type and size of equipment, hourly rate, actual hours of operation and dates used to install the eligible EWP project measures. Equipment idle time is not eligible in-kind construction services, even if on the job site, and should not be included in the equipment operating records.
17. Prior to commencement of work and/or solicitation of bids, submit for NRCS review and concurrence a Quality Assurance Plan (QAP). The QAP shall outline technical and administrative expertise required to ensure the EWP project measures are installed in accordance with the plans and specifications, identify individuals with the expertise, describe items to be inspected, list equipment required for inspection, outline the frequency and timing of inspection (continuous or periodic), outline inspection procedures, and record keeping requirements. A copy of the final QAP shall be provided to NRCS prior to commencement of construction.
18. Provide construction inspection in accordance with the QAP.
19. Prepare and submit for NRCS concurrence an Operation and Maintenance (O&M) Plan, if applicable, prior to commence of work. The O&M Plan shall describe the activities the Sponsor will do to ensure the project performs as designed. Upon completion of the project measures, the Sponsor shall assume responsibility for O&M.
20. Provide copies of site maps to appropriate Federal and State agencies for environmental review. Sponsor will notify NRCS of environmental clearance, modification of construction plans, or any unresolved concerns as well as copies of all permits, licenses, and other documents required by Federal, state, and local statutes and ordinances prior to solicitation for installation of the EWP project measures. All modifications to the plans and specifications shall be reviewed and concurred on by NRCS.

21. Ensure that any special requirements for compliance with environmental and/or cultural resource laws are incorporated into the project.
22. The Sponsor must secure at its own expense all Federal, State, and local permits and licenses necessary for completion of the work described in this agreement as well as any necessary natural resource rights and provide copies of all permits and licenses obtained to NRCS.
23. Will arrange and pay for any necessary location, removal, or relocation of utilities. EWP program regulations prohibit NRCS from reimbursing the Sponsor or otherwise paying for any such costs; nor do the costs qualify as a Sponsor cost-share contribution.
24. Ensure that technical and engineering standards and specifications of NRCS are adhered to during construction of the Project, as interpreted by NRCS Program/Technical Contact. Provide NRCS Program/Technical Contact progress reports as necessary and agreed to. Progress reports should include technical on-site inspections of work accomplished for the period, work planned, results of material tests, deficient work products and/or tests with corrective actions taken, modifications anticipated, technical problems encountered, contractual issues and other relevant information.
25. Ensure that all contractors on NRCS assisted projects are performing their work in accordance with OSHA regulations and the Contract Work Hours and Safety Standards Act (40 USC 327-330) as supplemented by Department of Labor regulations (29 CFR Part 5). The Sponsor is responsible for periodically checking the contractor's compliance with safety requirements.
26. Arrange for and conduct final inspection of completed project with NRCS to determine whether all work has been performed in accordance with contractual requirements. Provide a PE certification that the Project was installed in accordance with approved plans and specifications.
27. Provide PE-certified as-built drawings and quantities for the project. A copy of the as-built drawings will be submitted to the NRCS Program/Technical Contact.
28. Pay the contractor(s) for work performed in accordance with the agreement and submit a SF-270, "Request for Advance or Reimbursement" to the NRCS Program/Technical Contact with all documentation to support the request. Final payment request shall be submitted within 90 calendar days of completion of the EWP project measures. Payments will be withheld until all required documentation is submitted and complete.
 - a. The **required supporting documentation for reimbursement of construction costs** include invoices and proof of payment to the contractor showing the items and quantities installed and certified by the engineer of record along with any supporting documentation such as quantity calculations, rock weight tickets, etc.

- b. The **required supporting documentation for reimbursement of in-kind construction expenses** will include employee time sheets, employee hourly rate, equipment operating logs, equipment hourly rate, and material quantities and invoices.
 - c. The **required documentation for reimbursement of technical and administrative services** will be invoices and proof of payment to consultants and/or employee time sheets along with the employee's hourly rate, hours worked, and date work was performed.
29. Ensure that information in the System for Award Management (SAM) is current and accurate until the final financial report (SF-425) under this award or final payment is received, whichever is later.
30. Take reasonable and necessary actions to dispose of all contractual and administrative issues arising out of the contract(s) awarded under this Agreement. This includes, but is not limited to disputes, claims, protests of award, source evaluation, and litigation that may result from the Project. Such actions will be at the expense of the Sponsor, including any legal expenses. The Sponsor will advise, consult with, and obtain prior written concurrence of NRCS on any litigation matters in which NRCS could have a financial interest.
31. Sponsor must indemnify and hold NRCS harmless to the extent permitted by State law for any costs, damages, claims, liabilities, and judgments arising from past, present, and future acts or omissions of the Sponsor in connection with its acquisition and management of the Emergency Watershed Protection Program pursuant to this agreement. Further, the Sponsor agrees that NRCS will have no responsibility for acts and omissions of the Sponsor, its agents, successors, assigns, employees, contractors, or lessees in connection with the acquisition and management of the Emergency Watershed Protection Program pursuant to this agreement that result in violation of any laws and regulations that are now or that may in the future become applicable.
32. Retain all records dealing with the award and administration of the contract(s) for 3 years from the date of the Sponsor's submission of the final request for reimbursement or until final audit findings have been resolved, whichever is longer. If any litigation is started before the expiration of the 3-year period, records are to be retained until the litigation is resolved or the end of the 3-year period, whichever is longer. Make such records available to the Comptroller General of the United States or his or her duly authorized representative and accredited representatives of the Department of Agriculture or cognizant audit agency for the purpose of making audit, examination, excerpts, and transcriptions.
33. Be liable to the NRCS for damages sustained by the NRCS as a result of the contractor failing to complete the work within the specified time. The damages will be based upon the additional costs incurred by the NRCS resulting from the contractor not completing the work within the allowable performance period.

These costs include but are not limited to personnel costs, travel, etc. The NRCS will have the right to withhold such amount out of any monies that may be then due or that may become due and payable to the Sponsor. This liability is not applicable to the extent that the contract performance time is extended by court judgment unless such judgment results from actions of the Sponsor not concurred in by NRCS.

34. Take necessary legal action, including bringing suit, to collect from the contractor any monies due in connection with the contract, or upon request of NRCS, assign and transfer to NRCS any or all claims, demands, and causes of action of every kind whatsoever that the Sponsor has against the contractor or his or her sureties.

B. THE NRCS WILL:

1. Assist Sponsor in establishing design parameters; determine eligible construction costs during the pre-design conference.
2. Designate a Government representative (GR) to serve as liaison with the Sponsor and identify that person's contact information with this executed agreement.
3. Review, comment and concur in preliminary and final plans, specifications, O&M Plan, Plan of Operations (if required) and QAP.
4. Make periodic site visits during the installation of the EWP project measures to review construction progress, document conformance to engineering plans and specifications, and provide any necessary clarification on the Sponsor's responsibilities.
5. Upon notification of the completion of the EWP project measures, NRCS shall promptly review the performance of the Sponsor to determine if the requirements of this agreement and fund expenditures as agreed have been met.
6. Make payment to the Sponsor covering NRCS' share of the cost upon receipt and approval of Form SF-270 and supporting documentation, withholding the amount of damages sustained by NRCS as provided for in this agreement. In the event there are questions regarding the SF 270 and supporting documentation, NRCS will contact the Sponsor in a timely manner to resolve concerns.

IV. SPECIAL PROVISIONS

- A. The furnishing of financial, administrative, and/or technical assistance above the original funding amount by NRCS is contingent on there being sufficient unobligated and uncommitted funding in the Emergency Watershed Protection (EWP) Program that is available for obligation in the year in which the assistance will be provided. NRCS may

not make commitments in excess of funds authorized by law or made administratively available. Congress may impose obligational limits on program funding that constrains NRCS's ability to provide such assistance.

- B. In the event of default of a construction contract awarded pursuant to this agreement, any additional funds properly allocable as construction costs required to ensure completion of the job are to be provided in the same ratio as construction funds are contributed by the parties under the terms of this agreement. Any excess costs including interest resulting from a judgment collected from the defaulting contractor, or his or her surety, will be prorated between the Sponsor and NRCS in the same ratio as construction funds are contributed under the terms of the agreement.
- C. Additional funds, including interest properly allocable as construction costs as determined by NRCS, required as a result of decision of the Contracting Officer or a court judgment in favor of a claimant will be provided in the same ratio as construction funds are contributed under the terms of this agreement. NRCS will not be obligated to contribute funds under any agreement or commitment made by the Sponsor without prior concurrence of NRCS.
- D. The State Conservationist may make adjustments in the estimated cost to NRCS set forth in this agreement for constructing the EWP measures. Such adjustments may increase or decrease the amount of estimated funds that are related to differences between such estimated cost and the amount of the awarded contract or to changes, differing site conditions, quantity variations, or other actions taken under the provisions of the contract. No adjustment will be made to change the cost sharing assistance provided by NRCS as set forth in this agreement, nor reduce funds below the amount required to carry out NRCS' share of the contract.
- E. Except for item D. above, this document may be revised as mutually agreed through a written amendment duly executed by authorized officials of all signatory parties to this agreement.
- F. NRCS, at its sole discretion, may refuse to cost share should the Sponsor, in administering the contract, elect to proceed without obtaining concurrence as set out in this agreement.
- G. Once the project is completed and all requests for reimbursement submitted, any excess funding remaining in the agreement will be de-obligated from the agreement.
- H. If inconsistencies arise between the language in the Statement of Work (SOW) in the agreement and the general terms and conditions, the language in the SOW takes precedence.

V. EXPECTED ACCOMPLISHMENTS AND DELIVERABLES

The following accomplishments and deliverable will be provided to NRCS.

1. One copy of the final engineering plans, specifications signed and sealed by a licensed professional engineer, including engineer's cost estimate, and approved Plan of Operations (if applicable).

If the grantee makes advance payments to contractors, the grantee must ensure

that the timing of such payments is designed to minimize elapsed time between the advance payment and the disbursement of funds. Payment requests from the grantee's contractors will not be sent to NRCS for review or approval.

- e. Accounting records for all costs incurred under this award must be supported by source documentation. Such documentation includes, but is not limited to, canceled checks, paid bills, payroll records, and subaward documents. Labor cost charges to this award must be based upon salaries actually earned and the time actually worked on this award. All project costs must be incurred within the approved project period of this award, including any approved no-cost extension of time. Costs that cannot be supported by source documentation or that are incurred outside of the approved project period and budget may be disallowed and may result in award funds being returned to the Federal Government by the recipient.

VI. ACCRUALS

- a. Recipients must submit an accrual estimate to the NRCS Program/Technical no later than 15 calendar days prior to the end of the quarter (submit by March 15, June 15, September 15 and December 15th).

- c. At a minimum, the signed accrual statement should include, "Under agreement number _____, at the close of the quarter ending _____, we have provided or anticipate providing goods or services that we have not requested payment for in the amount of \$_____." April 1 to June 30	July 31
July 1 to September 30	October 31

Reports must be submitted on an accrual accounting basis. Failure to submit reports in accordance with the above schedule may result in suspension or termination of award.

VIII. PERFORMANCE MONITORING AND REPORTING

- a. The recipient is responsible for monitoring day-to-day performance and for reporting to NRCS. If the project involves subaward arrangements, the recipient is also responsible for

monitoring the performance of project activities under those arrangements to ensure that approved goals and schedules are met.

- b. Every 6 months the recipient must submit a written progress report. Each report must cover—
 - 1. A comparison of actual accomplishments with the goals and objectives established for the reporting period and, where project output can be quantified, a computation of the costs per unit of output.
 - 2. The reasons why goals and objectives were not met, if appropriate.
 - 3. Additional pertinent information including, where appropriate, analysis and explanation of cost overruns or high unit cost.
- c. The recipient must submit a final performance report within 90 calendar days after completion of project.

IX. AUDIT REQUIREMENTS

The recipient is responsible for complying with audit requirements in accordance with 2 CFR 200, Subpart F. A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year.

X. SPECIAL PROVISIONS

- a. The recipient assures and certifies that it will comply with the minimum-wage and maximum-hour provisions of the Federal Fair Labor Standards Act.
- b. Employees of NRCS will participate in efforts under this agreement solely as representatives of the United States. To this end, they may not participate as directors, officers, employees, or otherwise serve or hold themselves out as representatives of the recipient. They also may not assist the recipient with efforts to lobby Congress or to raise money through fundraising efforts. Further, NRCS employees must report to their immediate supervisor any negotiations with the recipient concerning future employment and must refrain from participation in efforts regarding such parties until approved by the agency.
- c. Employees of the recipient will not be considered Federal employees or agents of the United States for any purposes under this agreement.

XI. PATENTS, INVENTIONS, COPYRIGHTS, AND ACKNOWLEDGMENT OF SUPPORT AND DISCLAIMER

Invention disclosure statements pursuant to 37 CFR Section 401.14(c) must be made in writing to:

Acquisitions Division

Grants and Agreements Services Branch
 1400 Independence Avenue, SW.
 Room 6823 South Building

- c. USDA receives a royalty-free license for Federal Government use, reserves the right to require the patentee to license others in certain circumstances, and requires that anyone exclusively licensed to sell the invention in the United States must manufacture it domestically.
- d. The following acknowledgment of NRCS support must appear in the publication of any material, whether copyrighted or not, and any products in electronic formats (World Wide Web pages, computer programs, etc.) that is substantially based upon or developed under this award:
 - “This material is based upon work supported by the Natural Resources Conservation Service, U.S. Department of Agriculture, under number [recipient should enter the applicable award number here].”

In addition, all publications and other materials, except scientific articles or papers published in scientific journals, must include the following statement:

- “Any opinions, findings, conclusions, or recommendations expressed in this publication are those of the author(s) and do not necessarily reflect the views of the U.S. Department of Agriculture.”
- e. All publications printed with Federal Government funds will include the most current USDA nondiscrimination statement, available from the Public Affairs Division, Civil Rights Division, or on the USDA and NRCS home pages. If the material is too small to permit the full nondiscrimination statement to be included, the material must, at a minimum, include the statement:
 - “USDA is an equal opportunity provider and employer.” Any publication prepared with funding from this agreement must include acknowledgement to USDA, Natural Resources Conservation Service.”

The recipient is responsible for ensuring that an acknowledgment of NRCS is made during news media interviews, including popular media such as radio, television, and news magazines, that discuss in a substantial way work funded by this award.

XII. COST-SHARING REQUIREMENTS

- a. If the award has specific cost-sharing requirements, the cost-sharing participation in other projects may not be counted toward meeting the specific cost-share requirement of this award, and must come from non-Federal sources unless otherwise stated in the applicable program announcement.
- b. Should the recipient become aware that it may be unable to provide the cost-sharing amount identified in this award, it must—
 1. Immediately notify the NRCS administrative contact of the situation.
 2. Specify the steps it plans to take to secure replacement cost sharing.
 3. Indicate the plans to either continue or phase out the project in the absence of cost sharing.

- c. If NRCS agrees to the organization's proposed plans, the recipient will be notified accordingly. If the organization's plans are not acceptable to NRCS, the award may be subject to termination. NRCS modifications to proposed cost sharing revisions are made on a case-by-case basis.
- d. Failure by the recipient to notify NRCS in accordance with paragraph (b) above may result in the disallowance of some or all the costs charged to the award, the subsequent recovery by NRCS of some of the NRCS funds provided under the award, and possible termination of the award, and may constitute a violation of the terms and conditions of the award so serious as to provide grounds for subsequent suspension or debarment.
- e. The recipient must maintain records of all project costs that are claimed by the recipient as cost sharing as well records of costs to be paid by NRCS. If the recipient's cost participation includes in-kind contributions, the basis for determining the valuation for volunteer services and donated property must be documented.

XIII. PROGRAM INCOME

Income derived from patents, inventions, or copyrights will be disposed of in accordance with the recipient's own policies. General program income earned under this award during the period of NRCS support must be added to total project funds and used to further the purpose and scope of this award or the legislation under which this award is made.

XIV. NONEXPENDABLE EQUIPMENT

Recipients purchasing equipment or products with funds provided under this award are encouraged to use such funds to purchase only American-made equipment and products. Title to nonexpendable equipment purchased with award funds will vest in the recipient upon completion of the award project and acceptance by NRCS of required final reports. When equipment is no longer needed by the recipient and the per-unit fair market value is less than \$5,000, the recipient may retain, sell, or dispose of the equipment with no further obligation to NRCS. However, if the per-unit fair market value is \$5,000 or more, the recipient must submit a written request to the NRCS administrative contact for disposition instructions.

XV. LIMIT OF FEDERAL LIABILITY

The maximum financial obligation of NRCS to the recipient is the amount of funds indicated in the award as obligated by NRCS. However, in the event that an erroneous amount is stated on the approved budget, or any supporting document relating to the award, NRCS will have the unilateral right to make the correction and to make an appropriate adjustment in the NRCS share of the award to align with the Federal amount authorized.

XVI. MODIFICATIONS AND TERMINATIONS

NRCS may amend or modify the award through an exchange of correspondence between authorized officials of the recipient and NRCS. The award is subject to termination if NRCS determines that the recipient has failed to comply with the terms and conditions of the award. In the event that the award is terminated, the financial obligations of the parties will be those set forth in 2 CFR Part 200.339.

XVII. AWARD CLOSEOUT

Award closeout is the process by which NRCS determines that all required project activities have been performed satisfactorily and all necessary administrative actions have been completed.

INDEPENDENT AUDITORS' REPORT

July 18, 2017

Honorable Mayor and
City Council of
City of Gautier, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Gautier, Mississippi, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion on Governmental and Business-type Activities

As discussed in Note 1(I) to the financial statements, management has not recorded certain capital assets in accordance with *Governmental Auditing Standards* and the Municipal Auditing and Accounting Guide issued by the State Auditor's office. As a result, material adjustments were made to the governmental and business-type activities to be in accordance with *Governmental Auditing Standards* and the requirements in the Municipal Auditing and Accounting Guide.

Qualified Opinion

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion on Governmental and Business-Type Activities" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the Governmental and Business-Type Activities of the City of Gautier, as of September 30, 2016, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in United States of America.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major fund and the aggregate remaining fund information of City of Gautier, Mississippi, as of September 30, 2016, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1(I), in an effort to comply with *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Municipal Audit and Accounting Guide*, issued by the Mississippi Office of the State Auditor, the City has changed its accounting principle in determining the useful lives and salvage values of capital assets. The City feels that adopting a more uniform policy in regards to capital assets that the accumulation of historical assets can be recorded more efficiently. As a result of this change in accounting principle, significant prior period adjustments have been made to net position in both the governmental and business-type activities.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedule and corresponding notes, the Schedule of the City's Proportionate Share of the Net Pension Liability, and the Schedule of the City's Contributions, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Gautier, Mississippi's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The accompanying Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The Schedule of Surety Bonds for City Officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 18, 2017, on our consideration of City of Gautier, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Gautier, Mississippi's internal control over financial reporting and compliance.

Other Reporting Required by *State of Mississippi*

In accordance with the State of Mississippi, we have also issued our report dated July 18, 2017, on our consideration of the City of Gautier's compliance with state laws and regulations. The purpose of that report is to describe the scope of our testing of internal controls over compliance with state laws and regulations and the result of that testing, and not to provide an opinion on internal controls or compliance. That report is an integral part of an audit performed in accordance with state guidelines in considering the City of Gautier's internal control over financial reporting and compliance.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City of Gautier as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those assets. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

Reporting the City of Gautier as a Whole

Statement of Net Position and the Statement of Activities

While this document contains information about the funds used by the City to provide services to our citizens, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016?" The Statement of Net Position and the Statement of Activities answer this question.

These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by the private sector companies. These bases of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net position and the changes in those assets. This change in assets is important because it tells the reader whether, for the City as a whole, the financial position of the City has improved or diminished. However, in evaluating the overall position of the City, non-financial information such as changes in the City's tax base and the condition of the City's capital assets will also need to be evaluated.

In the Statement of Net Position and the Statement of Activities, the City's activities are reported as governmental and business-type activities, which include all of the City's services including general government, police, fire, public works, culture and recreations, community services, water and sewer and solid waste. The City of Gautier has no component units.

Table 1 and Table 2 provide a summary of the City's net position and changes in net position for 2016 compared to 2015.

Reporting the City of Gautier's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the City's major funds. Based on restrictions on the use of monies, the City has established many funds, which account for the multitude of services provided to the City's residents. However, these fund financial statements focus on the City's most significant funds. In the case of the City of Gautier, the City's major funds are the General and \$7M Capital Improvement Bond funds.

Governmental Funds

The City's governmental funds focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future on services provided to the City's residents. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

The City's proprietary funds focus on business-type activities conducted by the City. These funds are reported using the accrual method of account, which uses an "economic resources" measurement focus. Under the accrual basis of accounting revenues are recognized in the period in which they are earned regardless of when cash flows occur. Expenses are recorded when the recognized when the service is performed or the goods are received regardless of when the invoice is paid. Proprietary Fund information helps you to determine whether business-type activities are self-maintaining or if they are being subsidized by general government revenues. The proprietary funds show operating revenues and expenses that support the primary operations of the fund.

Fiduciary Funds

Fiduciary Funds show amounts held by the City for the benefit of others and clearing accounts used by the city to track payroll expenditures and property tax receipts and disbursements.

The City's Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable and nonspendable resources. Such information may be useful in assessing the City's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use at the end of the fiscal year. These funds are accounted for by using the modified accrual basis of accounting. Types of governmental funds reported by the City include the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Project Funds.

General Fund Budgeting Highlights

The City's budget is prepared according to Mississippi law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. Governmental auditing standard require that cities present budgetary comparison schedules as required supplementary information to the financial statements. The most significant budgeted fund is the General Fund.

During the course of 2016, the City amended its general fund budget. All recommendations for a budget change come from the City Clerk to the Board of Alderman for approval. State law does not allow budget changes that modify functional levels of budget amounts within a department without board approval. With the General Fund supporting many of our major activities, such as our police and fire departments, as well as most legislative and executive activities, the General Fund is monitored closely looking for possible revenue shortfalls or over spending by individual departments.

Debt retirement	634,910	
Debt issuance	<u>(26,685)</u>	608,225

Fine revenue recognized on the modified accrual basis in the funds during the current year is reduced because prior year recognition would have been required on the Statement of Activities using the full accrual basis of accounting.	118,002

NOTES TO THE FINANCIAL STATEMENTS

City of Gautier, Mississippi
Notes to the Financial Statements
September 30, 2016

Note 1 - Summary of Significant Accounting Policies

The City of Gautier, Mississippi, (the "City") was incorporated June 17, 1986 under the laws of the State of Mississippi. The City operates under a Council-Manager form of government, which provides for an elected mayor and a six-member council. The following services are authorized by the City's charter: Public Safety (Police, Fire, Civil Defense and Protection Inspection), Street Maintenance, Garbage Collection, Water and Sewer, Culture, Recreation and Community Services, Public Improvements, Planning and Zoning, and General Administrative Services. The accounting and reporting policies of the City relating to the funds and accounts groups included in the accompanying financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Accounting principles generally accepted in the United States of America for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled *Audits of State and Local Governmental Units* and by the Financial Accounting Standards Board (when applicable). The more significant accounting policies of the City are described below.

A. Financial Reporting Entity

For financial reporting purposes, the reporting entity includes all funds that are covered by the oversight responsibility of the City's governing board. As defined by accounting principles generally accepted in the United States of America, the City is considered a "primary government." The City is governed by a six member council in which five members were elected by the citizens of each defined ward and one member elected at-large.

In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. The decision to include or exclude a potential component unit in the reporting entity was made by applying the criteria set forth in Accounting Principles Generally Accepted in the United States of America. The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the City is able to exercise oversight responsibilities. Based upon the application of these criteria, the following is a brief review of each potential component unit addressed in defining the government's reporting entity. Based upon the application of these criteria, the City has no component units.

Jackson County Utility Authority

This potential component unit was established by State Code and its governing board is appointed jointly by the area governments' governing bodies. This is an independent unit that selects management staff, sets user charges, establishes budgets and controls all aspects of its daily activities. The District has been determined to be a joint venture of the participating agencies. See Note 12 for details.

B. Basis of Presentation.

The City's basic financial statement consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

City of Gautier, Mississippi
Notes to the Financial Statements
September 30, 2016

Note 1 - Summary of Significant Accounting Policies (continued)

Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information about the City as a whole. The statements include all non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements.

Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues and are reported separately from business-type activities. Business-type activities rely mainly on fees and charges for support.

The Statement of Net Position presents the financial condition of the governmental activities and business-type activities of the City at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the City's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other revenues, not classified as program revenues, are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements:

Fund financial statements of the City are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into governmental, proprietary and fiduciary. Major individual Governmental Funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements. Non-major funds are aggregated and presented in a single column as Other Governmental Funds.

C. Measurement Focus and Basis of Accounting.

The Government-wide, Proprietary Funds and Fiduciary Funds (excluding agency funds) financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Shared revenues are recognized when the provider recognizes the liability to the City. Grants are recognized as revenues as soon as all eligibility requirements have been satisfied. Agency funds have no measurement focus, but use the accrual basis of accounting.

The City's proprietary funds apply all applicable GASB pronouncements and only the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: FASB Statements and Interpretations, Accounting Principle Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

The revenues and expenses of the proprietary funds are classified as operating and non-operating. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's primary operations. All other revenue and expenses are reported as non-operating.

City of Gautier, Mississippi
Notes to the Financial Statements
September 30, 2016

Note 1 - Summary of Significant Accounting Policies (continued)

Governmental financial statements are presented using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period when they are both measurable and available to finance operations during the year. Available means collected in the current period or within 60 days after year end to liquidate liabilities existing at the end of the year. Measurable means knowing or being able to reasonably estimate the amount. Expenditures are recognized only when payment is due. Property taxes, state appropriations and federal awards are all considered susceptible to accrual and have been recognized as revenues of the current fiscal period.

The City reports the following major Governmental Funds:

General Fund - This is the City's primary operating fund. It is used to account for all activities of the general government for which a separate fund has not been established.

\$7M Capital Improvement Bond Fund - This fund, along with others, is used to account for the City's revenues and expenditures restricted, committed or assigned to the construction and maintenance of public roads and bridges of the City and also to account for the City's debt service on the City's bond principal, interest and other debt related costs.

Additionally, the City reports the following fund types:

GOVERNMENTAL FUND TYPES

Special Revenue Funds - These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including acquisition or construction of capital facilities and other assets.

PROPRIETARY FUNDS

Enterprise Funds - These funds are used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the City has decided that periodic determination of revenues earned, expenses incurred and/or net income is necessary for management accountability.

It is the intent of the City Council that the costs (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges and that periodic determination of revenues earned, expenses incurred, and net income be identified for capital maintenance, public policy, management control, account ability, or other purposes.

Internal Service Funds - These funds are used to account for those operations that provide services to other departments or agencies of the government, or to other governments, on a cost-reimbursement basis. The City's internal service funds report on self-insurance for employee medical benefits and risk management for City's legal contingencies.

City of Gautier, Mississippi
Notes to the Financial Statements
September 30, 2016

Note 1 - Summary of Significant Accounting Policies (continued)

FIDUCIARY FUNDS

Agency Funds - These funds account for various taxes, deposits and other monies collected or held by the City, acting in the capacity of an agent, for distribution to other governmental units or designated beneficiaries.

D. Account Classifications

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2012 by the Government Finance Officers' Association.

E. Deposits and Investments

State law authorizes the City to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any City, municipality or school district of this state. Further, the City may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, and all certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash (generally three months or less). Investments in governmental securities are stated at fair value. However, the City had an investment that included governmental bonds during the fiscal year.

F. Receivables

All trade receivables are shown net of an allowance for uncollectibles. Miss. Code Ann. (1972) does not allow for write-off of debt owed to municipalities. The amount represented on the financial statements is conclusive of all bad debts owed by customers of the water and sewer department since the City started providing these services to citizens. The allowances are based on trade receivables in excess of 120 days outstanding.

G. Inter-Fund Transactions and Balances

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds." Noncurrent portions of inter-fund receivables and payables are reported as "advances to/from other funds." Advances between funds, as reported in the fund financial statements, are offset by a non-spendable fund balance account in the General Fund, if applicable, to indicate that they are not available for appropriation and are not expendable available financial resources. However, this is not applicable to advances reported in other governmental funds, which are reported, by definition, as restricted, committed, or assigned.

Inter-fund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position. Any outstanding balances between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." Any outstanding balances between fiduciary funds and the government-wide activities of the government are reported as Intra-entity balances and included in intergovernmental receivables on the Statement of Net Position.

H. Intragovernmental Transactions and Balances

Transactions between governmental agencies (agency funds) of the City are considered as transactions with external parties and are reported as revenues and expenditures/expenses in both the fund statements and the government-wide statements. However, associated receivables and payables as displayed as intragovernmental balances on the Statement of Net Position.

I. Capital Assets

Capital acquisition and construction are reflected as expenditures in Governmental Fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements. All purchased capital assets are stated at historical cost where records are available and at an estimated historical cost where no records exist. Capital assets include significant amounts of infrastructure which have been valued at estimated historical cost. The estimated historical cost was based on replacement cost multiplied by the consumer price index implicit price deflator for the year of acquisition. The extent to which capital assets, other than infrastructure, costs have been estimated and the methods of estimation are not readily available. Donated capital assets are recorded at estimated fair market value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend their respective lives are not capitalized; however, improvements are capitalized. Interest expenditures are not capitalized on capital assets.

Governmental accounting and financial reporting standards allowed governments meeting certain criteria to elect not to report major general infrastructure assets retroactively. The City meets these criteria and has so elected. Therefore, the major general infrastructure assets acquired prior to October 1, 2002, are not reported in the government-wide financial statements. However, as of September 30, 2016, the City has not systematically reported capital assets in accordance with generally accepted accounting principles.

Capital assets acquired or constructed for Proprietary Fund operations are capitalized at cost in the respective funds in which they are utilized. No interest is capitalized on self-constructed assets because non-capitalization of interest does not have a material effect on the City's financial statements. Donated capital assets are recorded at their fair value at the time of donation.

Change in Accounting Principle

In an effort to comply with *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Municipal Audit and Accounting Guide*, issued by the Mississippi Office of the State Auditor, the City has changed its accounting principle in determining the useful lives and salvage values of capital assets. The City feels that adopting a more uniform policy in regards to capital assets that the accumulation of historical assets can be recorded more efficiently. As a result of this change in accounting principle, significant prior period adjustments have been made to net position in both the governmental and business-type activities. See Note 5 and Note 14 for more details.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives are used to report capital assets in the government-wide statements. Depreciation is calculated on the straight-line basis for all assets, except land. A full year's depreciation expense is taken for all purchases and sales of capital assets during the year.

The following schedule details those thresholds, estimated useful lives and salvage value percentage of cost:

Machinery & equipment	5,000	5 years	10%
Property under capital leases	*	*	*

* Leased property capitalization policy and estimated useful life will correspond with the amounts for the asset classification, as listed above.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources expenditure until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources until that time.

Deferred amounts on pensions – Deferred outflows and inflows of resources should be reported when to show the City's proportionate share of amounts of the effects of actuarial differences and changes in assumptions to economic or demographic factors and differences between actual and projected earnings of multi-employer pension plan. In addition, a deferred inflow should be reported for employer contributions to the pension plan made subsequent to the measurement date.

Property tax for future reporting period/unavailable revenue – property taxes – Deferred inflows of resources should be reported when resources associated with imposed non-exchange revenue transactions are received or reported as a receivable before the period for which property taxes are levied.

Unavailable revenue – fines – When an asset is recorded in the governmental fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available.

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Long-term Liabilities

Long-term liabilities are the unmatured principal of bonds, loans, notes or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments.

In the government-wide financial statements and the Proprietary Fund financial information, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business activities Statement of Net Position.

M. Compensated Absences

The City has adopted a policy of compensation for accumulated unpaid employee personal leave. No payment is authorized for accrued major medical leave. Accounting principles generally accepted in the United States of America require accrual of accumulated unpaid employee benefits as long-term liabilities in the government-wide financial statements. In fund financial statements, Governmental Funds report the compensated absence liability payable only if the payable has matured.

An employee may accumulate unused vacation leave hours without limitation, however, cash payments upon employee termination or retirement are limited to a maximum of 30 days of a accumulated leave of pay. Employees have no claim for accumulated sick leave at termination, for retirement, lay-off, or cause. As such, no provision for unused sick leave has been provided in the financial statements. Unused vacation and sick leave balances may be credited to the Public Employee's Retirement System (PERS) as time worked.

N. Fund Balance Policies

In the fund financial statements, governmental funds report fund balance into classifications that comprise a hierarchy based on the extent to which the City is bound to honor constraints on the specific purpose for which amount in those funds can be spent. The classifications of fund balance are Non-spendable, Restricted, Committed, Assigned, and Unassigned. The following are descriptions of fund classifications used by the City:

Non-spendable fund balance includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

City of Gautier, Mississippi
Notes to the Financial Statements
September 30, 2016

Note 1 - Summary of Significant Accounting Policies (continued)

Committed fund balance includes amounts that can be used only for specific purposes pursuant to constraints imposed by a formal action of the City Council, the City's highest level of decision-making authority. This formal action is an order of the City Council as approved in the board minutes.

Assigned fund balance includes amounts that are constrained by the City's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is the residual amount within the fund that is not classified as non-spendable and is neither restricted nor committed. Assignments of fund balance are created by management pursuant to authorization established by the Board of Alderman.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for specified expenditures, restricted resources are considered spent before unrestricted resources. Within unrestricted resources, committed would be considered spent first (if available), followed by assigned (if available), and then unassigned amounts.

O. Net Position

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

Net investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, construction or improvement of those assets.

Restricted net position - Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net position - All other net position not meeting the definition of "restricted" or "invested in capital assets, net of related debt."

P. Intergovernmental Revenues in Governmental Funds

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the "available" criterion applies for certain federal grants and shared revenues when the expenditure is made because expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

Note 1 - Summary of Significant Accounting Policies (continued)

Q. Property Tax Revenues

Numerous statutes exist under which the City Council may levy property taxes. The selection of authorities is made based on the objectives and responsibilities of the City. Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is limited by state law. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount which resulted from the assessments of the previous year.

The City Council, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase.

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectability criteria for property tax recognition because the lien and due date cannot be established until the date of original purchase occurs.

R. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

S. Implementation of New Accounting Principles

The City adopted the provisions of GASB Statement No. 73, *Accounting and Financial Reporting for Pension and Related Assets That Are Not within the Scope of GASB 68, and Amendments to Certain Provision of GASB 67 and GASB 68* ("GASB 73"). GASB 73 provides guidance on assets accumulated for pension plans that are not administered through a trust and provides clarity on certain provision of GASB 67 and GASB 68. The impact of this statement in relation to GASB 67 and GASB 68 is discussed in detail in Note 9.

The City adopted the provisions of GASB Statement No 82, *Pension Issues* ("GASB 82"). GASB 82 addresses practice issues raised during the implementation of the GASB's pension accounting and financial reporting standards for state and local governments. The impact of this statement in relation to GASB 67 and GASB 68 is discussed in detail in Note 8.

The carrying amount of the city's total deposits with financial institutions at September 30, 2016, was \$6,373,282, and the bank balance was \$6,486,545. Of this amount \$2,173,374 is restricted for workman's compensation trust and utility customer's deposits. The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC).

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of the failure of a financial institution, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the City. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the City.

Note 6 – Court Fines Receivable/Deferred Inflows of Resources

Court fines receivables are recorded as deferred inflow of sources in the fund financial statements due to the funds using modified accrual basis. However, revenues received during the year are recorded in the government-wide financial statements on the full-accrual basis of accounting. Miss. Code Ann. (1972) does not allow for write-off of debt owed to municipalities. The amount represented on the financial statements is conclusive of all bad debts owed by citizens to the municipal courts since the City started providing court services. Court fines receivable at September 30, 2016, were \$8,830,001, of which an allowance of \$8,388,499 has been determined as uncollectible with \$441,502 deemed collectible.

Note 7 – Claims and Judgments

Risk Financing

The City finances its exposure to risk of loss related to workers' compensation for injuries to its employees through the Mississippi Public Entity Workers' Compensation Trust, a public entity risk pool.

The City pays premiums to the pool for its workers' compensation insurance coverage, and the participation agreement provides that the pool will be self-sustaining through member premiums. The retention for the pool is \$1,000,000 for each accident and completely covers statutory limits set by the Workers' Compensation Commission. Risk of loss is remote for claims exceeding the pool's retention liability. However, the pool also has catastrophic reinsurance coverage for statutory limits above the pool's retention, provided by Safety National Casualty Corporation, effective from January 1, 2016, to January 1, 2017. The pool may make an overall supplemental assessment or declare a refund depending on the loss experience of all the entities it insures.

The City is exposed to risk of loss relating to employee health, accident and dental coverage. Pursuant to Section 25-15-101, Miss. Code Ann. (1972), the City established a risk management fund (included as an Internal Service Fund) to account for and finance its uninsured risk of loss. Under the plan, amounts payable to the risk management fund are based on actuarial estimates. Each employee pays a portion of his/her premium through a payroll deduction. The City pays the remaining portion of the premium on a single coverage policy for its respective employees. Employees desiring additional and/or dependent coverage pay the additional premium through a payroll deduction. Premium payments to the risk management fund are determined on an actuarial basis. The City has minimum uninsured risk retention to the extent that actual claims submitted exceed the predetermined premium. The City has implemented the following plans to minimize this potential loss:

The City has purchased coinsurance which functions on specific stop loss coverage. This coverage is purchased from an outside commercial carrier. For the current fiscal year, the specific coverage begins when an individual participant's claim exceeds \$65,000.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). At September 30, 2016, the amount of this liability was \$89,359.

Note 8 – Retirement Plan

The City contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi Legislature.

Plan Description and Provisions

Substantially all of the City's full-time employees participate in PERS, a multi-employer, cost-sharing, defined benefit public employee pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employee Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005, or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits Provided

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public cities. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring.

Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007).

Note 8 – Retirement Plan (continued)

PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

Contributions

PERS members are required to contribute 9.00% of their annual covered salary, and the City is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2016, was 15.75% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2016, the City reported a liability of \$11,967,873 in the governmental activities for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the PERS net pension liability was based on a projection of the City's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2016, the City's proportion was .067%. For the year ended September 30, 2016, the City recognized PERS pension expense for governmental activities of \$1,363,867.

At September 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 333,816	\$ -
Changes of assumptions	564,191	(31,802)
Net difference between projected and actual earnings on pension plan investments (netted with 2014 inflow)	810,765	-
Changes in City proportionate share of net pension liability	-	(140,837)
Changes in City's proportionate share of collective deferrals	-	(18,022)
Difference between City's contributions and proportionate share of contributions	-	(20,888)
City contributions subsequent to the measurement date	183,199	-
Total	<u>\$ 1,891,971</u>	<u>\$ (211,549)</u>

Within the deferred outflows, a net amount of \$183,199 of deferred outflows of resources is related to pensions resulting from the City's contributions subsequent to the measurement date and will be recognized as a reduction to the net pension liability in the year ended September 30, 2017.

Note 8 – Retirement Plan (continued)

The remaining amounts reported as deferred outflows of resources related to pensions of \$1,708,772, and deferred inflows of resources related to pensions of \$211,549, netting to \$1,497,223 will be recognized in pension expense as follows:

Year Ending September 30,	
2017	\$ 467,943
2018	376,028
2019	416,824
2020	236,428
	<u>\$ 1,497,223</u>

Actuarial assumptions

The total pension liabilities in the June 30, 2016, actuarial valuation were determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00 percent
Salary increases	3.75 percent to 19.00 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

The table for post-retirement mortality rates used in evaluating allowances to be paid was the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016 with male rates set forward one year. The RP-Disabled Retiree Table set forward five years for males and four years for females, was used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2016, valuation were based on the results of an actuarial experience study for the four year period ending June 30, 2016. The experience report is dated May 4, 2015.

The long-term expected rate of return on the investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of the plans' investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage and by adding expected inflation.

City of Gautier, Mississippi
Notes to the Financial Statements
September 30, 2016

Note 8 – Retirement Plan (continued)

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
US Broad	34%	5.20%
International Equity	19%	5.00%
Emerging Markets Equity	8%	5.45%
Fixed Income	20%	0.25%
Real Assets	10%	4.00%
Private Equity	8%	6.15%
Cash	1%	(0.50%)
	<u>100%</u>	

Discount rate

The discount rate used to measure the total pension liability was 7.75 percent, which was based on the future long-term expected rate of return of 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions for PERS will be made at rates set in the Board's Funding Policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return investments was applied to all periods of projected benefit payments to determine the plan's total pension liability.

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate

The following table presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.75 percent) or one percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1 % Increase (8.75%)
City's Proportionate share of PERS	\$ 15,345,496	\$ 11,967,873	\$ 9,165,540

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report which can be obtained at www.pers.ms.gov.

Total outstanding debt during a year can be no greater than 15% of assessed value of the taxable property within the City, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever a City issues bonds to repair or replace washed out or collapsed bridges on the public roads of the City. As of September 30, 2016, the amount of outstanding debt was equal to 5.57% of the latest property assessments.

D. Compensated Absences

Compensated absences will be paid from the funds from which the employees' salaries were paid which are generally the General Fund.

Note 10 – Property and Sales Tax Revenue

A. Property Tax Revenues

The City levies a tax on real and personal property based on the assessed value of property as compiled by the information extracted from the City assessment tax rolls. The taxes on real property attach as an enforceable lien on the property as of January 1. Taxes on real and personal property are levied by the City Council at the first regular meeting in September.

City of Gautier, Mississippi
Notes to the Financial Statements
September 30, 2016

Note 10 – Property and Sales Tax Revenue (continued)

In accordance with the Mississippi Code of 1972, as amended, the City Council may levy taxes in any amount for general revenue purposes and general improvements. However, taxes collected for the current year are limited to an increase of not more than 10% over receipts for any one of the preceding ten years or a minimum of 20 mills. For purposes of the computation, taxes collected in the current year resulting from property added to the tax assessment roll are excluded from the computation.

The rates are expressed in terms of mills (i.e., ten mills equal one cent). The combined tax rate to finance general governmental services, including the payment of principal and interest on long-term debt but exclusive of school bond and interest for the year ended September 30, 2016 was 37.70 mills or \$37.70 per \$1,000 of assessed valuation.

Property taxes at the fund level are recorded as receivables and deferred inflow of resources at the time the taxes are levied. Revenues are recognized as the related ad valorem taxes are collected including those collected 60 days after year-end. Additional amounts estimated to be collectible in time to be a resource for payment of obligations incurred during the fiscal year and therefore susceptible to accrual in accordance with GAAP have been recognized as revenue.

B. General Sales Tax Revenues

The State levies a 7% sales tax on retail sales and remits 18.5% of the amount collected (within the corporate boundaries of the City of Gautier) back to the City monthly. General sales tax revenue reported in the General Fund was \$2,254,625.

Note 11 – Commitments and Contingencies

A. Risk Management

Claims and Judgments - The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Federal Grants - The city has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a grantor audit may become a liability of the City. No provision for any liability that may result has been recognized in the City's financial statements.

Litigation - The City is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the City with respect to the various proceedings. However, the City's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the City.

Notes to the Required
Supplementary Information-Budgetary Schedules
For the Fiscal Year Ended September 30, 2016

A. Budgetary Information.

State statutes authorize the State Auditor to regulate the municipal budget process. Expenditures must be defined to the minimum level prescribed by the State Auditor. The State Auditor has set this level at the purpose level. Municipalities are prohibited from spending in excess of the lowest level adopted in the budget except for capital outlay, election expense and emergency warrants.

B. Basis of Presentation.

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non-GAAP Basis) and variances between the final budget and the actual amounts. The schedule is presented for the General Fund and each major Special Revenue Fund. The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) is a part of required supplemental information.

C. Budget/GAAP Reconciliation.

The major differences between the budgetary basis and the GAAP basis are:

1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

D. Budgetary Data

The procedures used by the City in establishing budget are mandated by Mississippi State law. A brief summary of the City's policies for recording budgetary data in the financial statements are as follows:

1. Prior to August 1, the Mayor submits to the Board of Alderman a proposed operating budget for the fiscal year beginning October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. No later than September 15, the budget is legally enacted through passage of a resolution.
4. Formal budgetary integration is employed as a management control device during the year for all governmental and proprietary funds.
5. Budgets for the governmental and proprietary funds are adopted on a cash basis except for expenditures which include those paid within 30 days of the fiscal year end as required by state statute.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

July 18, 2017

Honorable Mayor and
City Council of
City of Gautier, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the City of Gautier, Mississippi (the "City") which comprise the statement of financial position as of September 30, 2016, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated July 18, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we considered to be a material weaknesses: 2016-002.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* as described in the Schedule of findings and questioned cost: 2016-001.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

City of Gautier, Mississippi's Response to Findings

City of Gautier Mississippi's response to the findings identified in our audit is described in the Auditee's Corrective Action Plan. City of Gautier, Mississippi's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**LIMITED INTERNAL CONTROL AND
COMPLIANCE REVIEW MANAGEMENT REPORT**

July 18, 2017

Honorable Mayor and
City Council of
City of Gautier, Mississippi

In planning and performing our audit of the financial statements of the City of Gautier, Mississippi for the year ended September 30, 2016, we considered the City's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to City of Gautier's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the County's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated July 18, 2017, on the financial statements of the City of Gautier, Mississippi.

Due to the reduced scope, these review procedures and compliance tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Miss. Code Ann. (1972), the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

The results of our review procedures and compliance tests identified certain areas that are opportunities for strengthening internal controls and operating efficiency. Our finding, recommendation, and your response are disclosed below:

Comptroller.

1. The City is not following the chart of accounts prescribed by the State Auditor Municipal Audit and Accounting Guide. (Section 21-35-11)

Recommendation:

We recommend that the City follow the State Auditor's accounting guide.

City's Response:

The City concurs with the auditor's recommendation.

This report is intended for the information of the City's management and the Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

**INDEPENDENT AUDITOR'S REPORT
ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

July 18, 2017

Honorable Mayor and
City Council of
City of Gautier, Mississippi

Report on Compliance for Each Major Federal Program

We have audited City of Gulfport, Mississippi's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have direct and material effect on each of City's major federal programs for the year ended September 30, 2016. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each of the Other Major Federal Programs

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended September 30, 2016.

Report on Internal Control over Compliance

Management of the City, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION 2 – FINANCIAL STATEMENT FINDINGS

Finding Number 2016-001

Opinion Unit Governmental Activities

Business-type Activities

Finding Type Material weakness

Finding Capital assets

Criteria Capital assets must be accounted for in accordance with State guidelines.

Condition During our audit testing we made several adjustments to capital assets and related depreciation to comply with *Governmental Auditing Standards* issued by the Comptroller General of the United States, and the *Municipal Audit and Accounting Guide* issued by the Mississippi Office of the State Auditor.

Effect The audit adjustments made to comply with guidelines were material to the governmental activities and business-type activities.

Recommendation The City needs to comply with *Governmental Auditing Standards* and the guidelines outlined in the *Municipal Audit and Accounting Guide* issued by the Mississippi Office of the State Auditor.

Finding Number 2016-002

Opinion Unit Governmental Activities

Finding Type Material weakness in Internal Control

Finding Inadequate segregation of duties.

Criteria An effective system of internal control requires that no one person handle all of the elements of a single transaction.

Condition During our audit, we noted that the court clerk handles large volumes of cash transactions. She also handles receipts, and posts the payments to court software. The court clerk also has the ability to make adjustments to case data.

Effect Failure to implement controls over the collecting, recording and lack of separation of duties could result in the loss or misappropriation of public funds.

Recommendation We recommend that the City establish and implement new procedures and policies in order to maintain adequate separation of duties and oversight in the collection of court and traffic fees.

**AMENDMENT NUMBER 14
And Summary of Material Modification
to the
Plan Document and Summary Plan Description for
City of Gautier Employee Health Benefit Plan
Effective October 1, 2004**

Amendment Effective October 1, 2017

The City of Gautier believes the City of Gautier Employee Health Benefit Plan (the “Plan”) is a “grandfathered health plan” under the Patient Protection and Affordable Care Act (the Affordable Care Act). As permitted by the Affordable Care Act, a grandfathered health plan can preserve certain basic health coverage that was already in effect when that law was enacted. Being a grandfathered health plan means that your Plan may not include certain consumer protections of the Affordable Care Act that apply to other plans, for example, the requirement for the provision of preventive health services without any cost sharing. However, grandfathered health plans must comply with certain other consumer protections in the Affordable Care Act, for example, the elimination of lifetime limits on benefits.

Questions regarding which protections apply and which protections do not apply to a grandfathered health plan and what might cause a plan to change from grandfathered health plan status can be directed to the plan administrator at P.O. Box 670, Gautier, Mississippi 39553. You may also contact the Employee Benefits Security Administration, U.S. Department of Labor at 1-866-444-3272 or www.dol.gov/ebsa/healthreform. This website has a table summarizing which protections do and do not apply to grandfathered health plans.

The Plan Document which also serves as a Summary Plan Description is hereby amended to incorporate the following changes to the Schedule of Benefits effective October 1, 2017. The schedule listed in this plan amendment supersedes all prior amendments of the Plan Document/Summary Plan Description.

The section entitled **SCHEDULE OF BENEFITS** is hereby replaced with:

Important news about your 2017 benefit rates

CITY OF GAUTIER Policy: 133110 133111

Dear Ms. Hill,

Thank you for being a valued Unum customer.

As your employee benefits partner, we think it's important to be straightforward and transparent. Your rates will be increasing next year, and we'd like to explain why.

Like any company, we have to find the right balance between pricing and the cost of doing business. Over the past few years, several nationwide trends have made it harder to achieve this balance without raising prices. First, historically low interest rates have limited our investment income, which we rely on to help pay claims. Meanwhile, claims have increased because the workforce is aging and certain health-related conditions are becoming more common.

We've resisted raising rates despite these trends. In fact, this is your first rate increase in nine years. But this year it's necessary — to protect our ability to protect your employees.

Here's how that breaks down:

	Current rate	Renewal rate	Effective date	Guaranteed through
Long Term Disability Insurance	1.14	1.14	10/1/2017	10/1/2019
Life Insurance	0.230	0.248	10/1/2017	10/1/2019
Accidental Death & Dismemberment	0.020	0.020	10/1/2017	10/1/2019
Short Term Disability Insurance	0.71	0.71	10/1/2017	10/1/2019
*Your Lifestyle Life product will not receive an increase and will be under rate guarantee for 12 months.				

Our continued commitment

Your rates are changing, but the quality of service you receive will stay the same. In fact, we think it's more important than ever to provide a superior customer experience. For example, you'll continue to receive added services like these:

- HR®/BenefitAnswersNow™ — your resource for staying current on employment laws and insurance guidelines
- Our employee assistance program — which provides counseling and information to help employees deal with personal challenges big and small
- Worldwide emergency travel assistance — which provides employees and their families 24/7 access to medical resources and transportation assistance

From: Jason Pugh, Human Resources Director
Date: 08/25/2017
Subject: Approval to renew Commercial Property and Casualty Insurance for FY 2018 and enter into an agreement with HUB International to serve as the city's Broker of Record

REQUEST:

The Human Resources Department requests that the Gautier City Council approve the renewal of the city's commercial insurance policies brokered by HUB International for property and casualty insurance coverage for FY 2018. It is also requested that the Gautier City Council enter into a three (3) year agreement with HUB International to serve as the city's Broker of Record thru FY 2020.

BACKGROUND:

The City of Gautier through it's city manager has selected HUB International as our Broker of Record over our commercial insurance policies for FY 2018. HUB International has negotiated premiums with insurance carriers and has provided the city with the best possible rates and coverage's for FY 2018.

DISCUSSION:

Total property and casualty insurance premiums for FY 2018 will be \$238,364 for all commercial policies renewing on 09/30/17.

Insurance coverage for FY 2018 is as follows:

Commercial General Liability (\$0 deductible)
Auto Liability and Physical Damage (\$1,000 deductible)
Law Enforcement Liability Ins. (\$5,000 deductible)
Public Officials Liability Ins. (\$5,000 deductible)
Employment Practices Liability Ins. (\$5,000 deductible)
Employee Crime Ins. (\$500 deductible)
Commercial Property Ins. (1% wind/hail deductible for named storm, \$5,000 deductible for all other perils)
Inland Marine/Equipment (\$1,000 deductible)
Boat Insurance (\$1,000 deductible)

Liability limits are \$1,000,000 per occurrence.
Property Total Insured Value is \$9,505,973.

A sub-limit of \$3,500,000 in coverage per occurrence is being offered for water/sewer infrastructure for an additional \$65,000 in premium.

Hub International is offering the city a fixed broker fee for the next three (3) years in exchange for a signed three (3) year agreement to name HUB International as the city's Broker of Record for all listed policies through FY 2020. This broker fee will save the city \$4,500 in additional premium for FY 2018 versus standard commission.

If the three (3) year agreement is approved by the City Council the renewal premium for FY 2018 will be \$233,865.

RECOMMENDATION:

The Human Resources Director recommends the Gautier City Council approve the renewal of the Commercial Insurance policies brokered by Hub International for FY 2018 as presented. It is further recommended that the City of Gautier enter into a three (3) agreement with HUB International to act as the city's Broker of Record on all listed policies through FY 2020.

Internet Liability Insurance

POWER

A new user hops onto the World Wide Web every seven seconds. The power button on a computer may be all that stands between your company and a cyber liability.

Pushing this button can be risky. Creating a Web site is simple, but the exposures that come with it are not. The Internet – that technological wonder of worldwide communication – is spinning a whole new “web” of liability exposures. Private companies that venture onto the World Wide Web face liability exposures that are emerging, evolving, and complex.

By disseminating information to the public via a Web site, commercial businesses now have some of the same exposures as publishers. These include conventional privacy, as well as emerging exposures related to operating on the Web. Traditional insurance policies may not be enough.

Think of the potential for trouble:

- A copyrighted image is displayed on your company's Web site without the image owner's permission.
- You find out too late that your company Web site's domain name has already been claimed by someone else.
- The megatags used on your company's Web site are trademark names owned by another company.
- Your company's new Web site accidentally includes unfavorable remarks about your competitors.
- An outside third party is able to access your customer's propriety information through your site.

The universe of potential plaintiffs is staggering, given the number of people and organizations that are currently surfing the Net. A potential legal action from just one of them could be costly. In a 1999 case, a company improperly used a sports celebrity's name and photograph on its Web site, and the celebrity sued for the “fair market value” of his name, plus additional damages of \$750,000. Clearly, the potential liability associated with Web site content is already great, still growing, and rapidly evolving.

We can Provide Coverage for:

- Copyright infringement.
- Defamation.
- Invasion of privacy.
- Trademark infringement.
- A broad definition of Internet activities.

RECOMMENDATIONS SECTION

DISCLAIMER: THIS FORM IS FOR ILLUSTRATION PURPOSES ONLY. PLEASE READ YOUR POLICY FOR SPECIFIC DETAILS.

BUILDING AND PERSONAL PROPERTY FORM:

Coinsurance. Buildings and Business Personal Property limits should be reviewed to determine if they are adequate and in compliance with the coinsurance requirements under your policy.

Off-Premises Services - Direct Damage. Coverage for damage resulting from an off-premises interruption of power or other utility service is excluded. This coverage can be added by endorsement and is recommended if your property is subject to this exposure. Coverage is available with and without spoilage.

Replacement Cost. Loss settlement under the form is on an actual cash value basis which is defined as current replacement cost less physical depreciation. Replacement cost coverage would eliminate depreciation if property is actually repaired or replaced. We recommend this coverage enhancement.

Signs and Glass. Coverage applying to outdoor signs and building glass is extremely limited under the form. Separate coverage is available for this property and is recommended if there is an exposure.

Incidental Property. Coverage on outdoor fences, radio and television antennas, trees, shrubs and plants, including debris removal expense is covered only for fire, lightning, explosion, riot or civil commotion or aircraft. The maximum which will be paid is \$1,000 with a limit of \$250 for any one tree, shrub or plant. Coverage is available by endorsement and is recommended if there is an exposure.

Debris Removal. The cost to remove debris of covered property under the form is extremely limited. Coverage is available by endorsement and is recommended.

Ordinance or Law. The form excludes any loss, or increase of loss, caused by the enforcement of any ordinance or law regulating the construction, use, or repair of any property. Coverage for loss to the undamaged portion of the building, demolition cost and increased cost of construction arising out of ordinances or laws can be provided by endorsement and is recommended.

BUSINESS INCOME AND/OR EXTRA EXPENSE COVERAGE FORM:

These coverages are designed to provide protection against loss of income, payment of necessary continuing expenses, and extra expenses from a covered cause of loss. Flood is a standard exclusion on these forms.

It may be possible to purchase higher limits as well as Flood Coverage for Business Income and Extra Expense on a limited basis.

Business Income. Business Income coverage is recommended to provide protection against loss of income and payment of necessary continuing expenses arising from suspension of your operations due to physical damage to your property by an insured cause of loss.

Extra Expense. Extra Expense is recommended to pay for costs in excess of normal operating expenses which you incur to continue operations without interruption after a direct property damage loss.

Rental Income. Coverage for loss of rental income resulting from untenability of all, or a portion, of the insured building due to damage or destruction of real or personal property by an insured peril is available and is recommended if your operations include this exposure.

Coinsurance. Limits under these forms should be reviewed to determine if they are adequate and in compliance with any coinsurance requirements under your policy.

Off-Premises Services-Time Element. Coverage for damage resulting from an off-premises interruption of power or other utility service is excluded. Coverage is available by endorsement and is recommended if your operations are subject to this exposure.

COMMERCIAL GENERAL LIABILITY FORM

Underground Storage Tanks Liability. If you have underground storage tanks subject to 1988 EPA regulations, insurance covering this exposure should be pursued.

Liquor Liability. This form excludes liquor liability exposures of insured whose business is the manufacture, sale, or serving of alcoholic beverages. Separate liquor liability coverage is available and recommended if your operations include these exposures.

Care, Custody and Control. This form excludes coverage for property damage to property in your care, custody or control. If your operations include these exposures, separate coverage is available and recommended.

Watercraft. This form excludes coverage on owned watercraft and non-owned watercraft over 25 feet. If your operations include these exposures, separate coverage is available and recommended.

COMMERCIAL CRIME FORM

Employee Dishonesty. Employee Dishonesty is recommended to provide coverage for the loss of money, securities and other property arising out of dishonest acts of your employees. Coverage is required by law for your pension plan.

Depositor's Forgery. Forgery or alteration coverage is recommended to protect you against loss due to the forgery or alteration of checks, bank draft, promissory notes, and similar financial instruments drawn on your bank account.

Theft, Disappearance and Destruction. Theft, Disappearance and Destruction including coverage for loss inside and outside premises is recommended to protect your money and securities from loss while within your premises and while outside the premises while in the care and custody of a messenger.

BOILER AND MACHINERY COVERAGE FORM.

Property coverages exclude explosion of steam boilers, steam pipes, steam turbines, or steam engines; loss caused by mechanical breakdown, including rupture or bursting caused by centrifugal force including loss to refrigeration equipment and damage to electrical and electronic equipment due to electrical arcing and power surges. Umbrella coverage is recommended to provide catastrophic coverage for liability claims which exceed your underlying liability insurance or to provide replacement coverage for underlying liability policies which are reduced or exhausted by loss. Minimum limits of \$5,000,000 are recommended.

FLOOD INSURANCE

Coverage for Flood, whether from rising water or wind-driven water, is a standard exclusion on Buildings, Business Personal Property and Business Income and Extra Expense coverages. Limited coverage can be obtained from the National Flood Program for Buildings and Business Personal Property but not Business Income or Extra Expense.

Primary Flood coverage, as well as Excess Flood coverage, may be available on a limited basis.

DIRECTORS & OFFICERS LIABILITY

Directors and officers can be held personally liable if their negligent acts result in loss to the company or its shareholders. Claims can be initiated by shareholders, employees (wrongful termination, discrimination, defamation), customers (restraint of trade, deceptive trade practices), competitors (copyright, patent or business interference), and government regulators. Coverage is available and should be considered.

EMPLOYMENT PRACTICES ERRORS & OMISSIONS

Commercial General Liability and Garage Liability policies generally do not provide coverage for employment-related injury to employees arising out of wrongful termination, discrimination and sexual harassment. The Employment Practices E&O policy provides this coverage. It is written specifically to provide coverage for indemnification and/or legal expense reimbursement arising out of wrongful discharge, discrimination and sexual harassment. Coverage can be provided for legal expenses only or indemnification for damages awarded.

TERRORISM

On November 26, 2002, President Bush signed into law the Terrorism Risk Insurance Act of 2002 (the "ACT"). The Act establishes a short-term program under which the Federal Government will share in the payment of covered losses caused by certain acts of international terrorism. We are providing you with this notice to inform you of the key features of the Act and to let you know what effect, if any, the Act will have on your premium.

Under the Act, insurers are required to provide coverage for certain losses caused by international acts of terrorism as defined in the Act. The Act further provides that the Federal Government will pay a share of such losses. Specifically, the Federal Government will pay 90% of the amount of covered losses caused by certain acts of terrorism which are in excess of the company's statutorily established deductible for that year. The Act also caps the amount of terrorism-related losses for which the Federal Government or an insurer can be responsible at \$100,000,000,000.00, provided that the insurer has met its deductible.

HOW WE GET PAID

HUB International takes pride in the services our brokerages provide to you, our client, for insurance and risk management programs. For our efforts we are compensated in a variety of ways, primarily in the form of commissions and contingency amounts paid by insurance companies and, in some cases, fees paid by clients or third parties. The means by which we are compensated are described below.

Commission income - Commission, normally calculated as a percentage of the premium paid to the insurer for the specific policy, is paid to us by the insurer to distribute and service your insurance policy. Our commission is included in the premium paid by you. The individuals at HUB International who place and service your insurance may be paid compensation that varies directly with the commissions we receive.

Contingency income - We also receive income through contingency arrangements with most insurers. They are called "contingent" because to qualify for payment we normally need to meet certain criteria, usually measured on an annual basis. Contingency arrangements vary, but payment under these agreements is normally the result of growing the business by attracting new customers, helping the insurance company gather and assess underwriting information and/or working to renew the policies of existing insureds. There is currently no meaningful method to determine the exact impact that any particular insurance policy has on contingency arrangements. However, brokers tend to receive higher contingency payments when they grow their business and retain clients through better service. In other words, the amount of earned contingency income depends on the overall size and/or profitability of all of a group of accounts, as opposed to the placement or profitability of any particular insurance policy. For this reason, the individuals involved in placing or servicing insurance are rarely, if ever, compensated directly for the contingent income that we receive.

Supplemental Commissions - Some insurance companies have recently replaced contingent commissions with supplemental commissions. These commissions, in fixed amounts, are established annually in advance based on historical performance measured by criteria comparable to those by which contingent commissions are calculated. We refer to these commissions as guaranteed supplemental commissions, or "GSCs".

Fees paid by clients - On occasion, with more complex business insurance programs and where additional resources, products or services are appropriate, a fee may be negotiated for placement of insurance coverage or additional services. Fees charged for the placement of insurance will be outlined in a proposal and approved, usually in writing, prior to the insurer binding coverage. On occasion, we may receive both commissions *and* client-paid fees for placing insurance, which generally will be disclosed in writing to you in advance. In certain circumstances clients pay us mutually agreed-upon fees for additional services, such as third party administration of employee benefits or workers' compensation programs.

Wholesale Operations - We own wholesale insurance brokerages in both the U.S and Canada. These are intermediaries through which other brokers, typically retail brokers that have a relationship and deal directly with their clients, place coverage. Our own retail brokers may place client policies through HUB-owned wholesale brokers. In such cases, both the HUB retail broker and the HUB wholesale broker will earn commissions, and they are included in the client's premium payment. Ordinarily wholesale brokers, whether owned by HUB International or not, are included in the transaction because they offer products that are particularly suitable to a client's needs that are not available through normal insurance brokerage retail channels.

Other Compensation and Benefits - We may receive revenue or further benefits from our insurance brokerage activities in other ways, including, but not limited to, from insurance company promotional events, payments from insurers for promotional marketing and/or employee training and development, fees or a percentage of the interest paid to us for the administration of premium finance contracts, interest paid to us by financial institutions earned on fiduciary or trust accounts in which we hold your premium payments pending remittance to the insurance company, and fees paid to us for policy and/or claims administration and/or loss control services that we provide.

Related Party Transactions - In limited circumstances, our subsidiaries or employees may have interests in, or our employees may serve on boards or committees of, insurers or reinsurers with whom policies are placed.

Customer Centric Carriers - We have access to the products and services of hundreds of insurers. However, we believe our ability to provide the best combination of products, service, value and ongoing access to capacity is enhanced by focusing on a manageable number of carrier relationships. These strategic relationships include many of the most respected national and regional insurance companies in the insurance industry (the "Strategic Carriers"). Although we will continue to access our other insurance company relationships where appropriate, we expect that many of our clients' insurance needs may be met through the Strategic Carriers. The Strategic Carriers may pay us enhanced compensation, which we intend to use in part to invest in initiatives to improve our ability to serve our customers' and to optimize their insurance buying experience. A portion of any enhanced compensation from our Strategic Carriers may be used to incentivize our employees to prioritize, investigate and access the products and services of our Strategic Carriers for the purpose of consolidating the number of insurance markets we deal with, while at the same time addressing the needs of our clients. More information regarding our Strategic Carrier relationships is available upon request from your HUB International insurance advisor or by visiting our website at www.HUBinternational.com.

Our goal is to be your insurance brokerage of choice. We know you have many brokerages to choose from, so to earn your confidence, we hold ourselves to the highest standard of service, a standard reflected in our written Client Commitment - we call it the "*The HUB Advantage*." We hope you will review the principles embodied in *The HUB Advantage*, a copy of which is attached for your convenience. You should also feel free to visit our website at www.HUBinternational.com for more information regarding HUB International and how we do business.

Please also feel free to ask any questions about our compensation generally, or as to your specific insurance proposal or placement, by contacting your HUB broker or customer service representative directly, or by calling our client hotline at 1-866-857-4073.

We want you to choose a HUB International broker to be your insurance advisor – and we intend to make your decision an educated one.

Vacant Buildings

If the building where loss or damage occurs has been vacant for more than 60 consecutive days before that loss or damage, we will:

A. Not pay for any loss or damage caused by any of the following, even if they are Covered Causes of Loss:

- (1) Vandalism;
- (2) Sprinkler leakage, unless you have protected the system against freezing;
- (3) Building glass breakage;
- (4) Water damage;
- (5) Theft; or
- (6) Attempted theft

B. Reduce the amount we would otherwise pay for the loss or damage by 15%.

A building is vacant when it does not contain enough business personal property to conduct customary operations.

Buildings under construction are not considered vacant.

Risk Management

The basic purpose of insurance is to insure catastrophic losses which would financially impair your future.

Insurance should not be purchased for small exposures since the cost is prohibitive and may use premium dollars you need to cover your major exposures.

There are three basic procedures for determining your insurance needs:

- **Eliminating or reducing your risk --**
Use of proper management of maintenance, repair, training and safety programs;
- **Assuming the risk yourself --**
Paying small losses yourself and buying high deductibles;
- **Transferring the risk --**
Buying the proper amounts of insurance tailored to your specific needs.

HUB International Gulf South retains loss prevention specialists that can assist in assessing your current risk management needs. Services can include recommendations, as well as implementation of safety solutions depending on the scope of work required.

Please contact Chief Sales Officer Shaun Norris for more information on these services at 504/846-7822.

Termination of Engagement: It is certainly our intent that our engagement will continue for the period specified, and we hope, be extended for subsequent periods in a mutual beneficial relationship between our organizations. We recognize that circumstances can change, however. Accordingly, either of us has the right to terminate the engagement upon 60 days’ written notice to the other party. In the event of a termination, we will assist you in a smooth transition to the service provider of your choice. If Hub International terminates our engagement mid-term, we will refund our unearned fee on a pro-rata basis, less any amounts we have paid to other City of Gautier service providers pursuant to the engagement. If City of Gautier terminates the engagement mid-term, our annual compensation will be deemed earned on the following schedule, and we will refund the unearned portion, less any amounts paid to other City of Gautier providers:

We are most pleased to be working with City of Gautier. I am enclosing two originals of this engagement letter, signed by me. Please acknowledge one by signing where indicated and returning it to me as soon as possible.

Sincerely,

Acknowledged and Agreed:

(applicable to equipment rental transactions)

This Rental Agreement (hereinafter referred to as Agreement) is entered into by and between **City of Gautier Police Department** (hereinafter referred to as Customer), and **R.J. Young Company** (hereinafter referred to as Vendor). This Agreement becomes effective upon signature by Customer and Vendor, and shall take precedence over all agreements and understandings between the parties. Vendor, by its acceptance hereof, agrees to rent to Customer, and Customer, by its acceptance hereof, agrees to rent from Vendor, the equipment, including applicable software and services to render it continually operational, listed in Exhibit A, which is attached hereto and incorporated herein.

1. **CUSTOMER ACCOUNT ESTABLISHMENT:**

- A. A separate Vendor Customer Number will be required for each specific customer/installation location.
- B. The Customer is identified as the entity on the first line of the "bill-to" address. All invoices and notices of changes will be sent to the "bill-to" address in accordance with Paragraph 8 herein.
- C. Ship-to and/or Installed-at address is the location to which the initial shipment of equipment/supplies will be made and the address to which service representatives will respond. Subsequent shipments of supplies for installed equipment will also be delivered to the "installed-at" address unless otherwise requested.
- D. Unless creditworthiness for this Customer Number has been previously established by Vendor, Vendor's Credit Department may conduct a credit investigation for this Agreement. Notwithstanding delivery of equipment, Vendor may revoke this Agreement by written notice to the Customer if credit approval is denied within thirty (30) days after the date this Agreement is accepted for Vendor by an authorized representative.

2. **EQUIPMENT SELECTION, PRICES, AND AGREEMENT:** The Customer has selected and Vendor agrees to provide the equipment, including applicable software and services to render it continually operational, identified on Exhibit A attached to this Agreement. The specific prices, inclusive of applicable transportation charges, are as set forth on the attached Exhibit A. The parties understand and agree that the Customer is exempt from the payment of taxes.

3. **SHIPPING AND TRANSPORTATION:** Vendor agrees to pay all non-priority, ground shipping, transportation, rigging and drayage charges for the equipment from the equipment's place of manufacture to the installation address of the equipment as specified under this Agreement. If any form of express shipping method is requested, it will be paid for by Customer.

4. **RISK OF LOSS OR DAMAGE TO EQUIPMENT:** While in transit, Vendor shall assume and bear the entire risk of loss and damage to the equipment from any cause whatsoever. If, during the period the equipment is in Customer's possession, due to gross negligence of the customer, the equipment is lost or damaged, then, the customer shall bear the cost of replacing or repairing said equipment.

5. **DELIVERY, INSTALLATION, ACCEPTANCE, AND RELOCATION:**

A. **DELIVERY:** Vendor shall deliver the equipment to the location specified by Customer and pursuant to the delivery schedule agreed upon by the parties. If, through no fault of the Customer, Vendor is unable to deliver the equipment or software, the prices, terms and conditions will remain unchanged until delivery is made by Vendor. If, however, Vendor does not deliver the equipment or software within ten (10) working days of the delivery due date, Customer shall have the right to terminate the order without penalty, cost or expense to Customer of any kind whatsoever.

B. INSTALLATION SITE: At the time of delivery and during the period Vendor is responsible for maintenance of the equipment, the equipment installation site must conform to Vendor's published space, electrical and environmental requirements; and the Customer agrees to provide, at no charge, reasonable access to the equipment and to a telephone for local or toll free calls.

C. INSTALLATION DATE: The installation date of the equipment shall be that date as is agreed upon by the parties, if Vendor is responsible for installing the equipment.

D. ACCEPTANCE: Unless otherwise agreed to by the parties, Vendor agrees that Customer shall have ten (10) working days from date of delivery and installation, to inspect, evaluate and test the equipment to confirm that it is in good working order.

E. RELOCATION: Customer may transfer equipment to a new location by notifying Vendor in writing of the transfer at least thirty (30) calendar days before the move is made. If Vendor is responsible for maintenance of the equipment, this notice will enable Vendor to provide technical assistance in the relocation efforts, if needed, as well as to update Vendor's records as to machine location. There will be no cessation of rental charges during the period of any such transfer. The Vendor's cost of moving and reinstalling equipment from one location to another is not included in this Agreement, and Customer agrees to pay Vendor, after receipt of invoice of Vendor's charges with respect to such moving of equipment, which will be billed to Customer in accordance with Vendor's standard practice then in effect for commercial users of similar equipment or software and payment remitted in accordance with Paragraph 8 herein.

6. RENTAL TERM: The rental term for each item of equipment shall be that as stated in the attached Exhibit A. If the Customer desires to continue renting the equipment at the expiration of the original rental agreement, the Customer must enter into a new rental agreement which shall be separate from this Agreement. There will be no automatic renewals allowed. There shall be no option to purchase.

7. OWNERSHIP: Unless the Customer has obtained title to the equipment, title to the equipment shall be and remain vested at all times in Vendor or its assignee and nothing in this Agreement shall give or convey to Customer any right, title or interest therein, unless purchased by Customer. Nameplates, stencils or other indicia of Vendor's ownership affixed or to be affixed to the equipment shall not be removed or obliterated by Customer.

8. PAYMENTS:

A. INVOICING AND PAYMENTS: The charges for the equipment, software or services covered by this Agreement are specified in the attached Exhibit A. Charges for any partial month for any item of equipment shall be prorated based on a thirty (30) day month. Vendor shall submit an invoice with the appropriate documentation to Customer.

All payments shall be in United States currency.

B. METER READINGS: If applicable, the Customer shall provide accurate and timely meter readings at the end

of each applicable billing period on the forms or other alternative means specified by Vendor. Vendor shall have the right, upon reasonable prior notice to Customer, and during Customer's regular business hours, to inspect the equipment and to monitor the meter readings. If Customer meter readings are not received in the time to be agreed upon by the parties, the meter readings may be obtained electronically or by other means or may be estimated by Vendor subject to reconciliation when the correct meter reading is received by Vendor.

C. COPY CREDITS: If applicable, if a copier is being rented, the Customer will receive one (1) copy credit for each copy presented to Vendor which, in the Customer's opinion, is unusable and also for each copy which was produced during servicing of the equipment. Copy credits will be issued only if Vendor is responsible for providing equipment services or maintenance services (except time and materials maintenance). Copy credits will be reflected on the invoice as a reduction in the total copy volume, except for run length plans which will be credited at a specific copy credit rate as shown on the applicable price list.

9. USE OF EQUIPMENT: Customer shall operate the equipment according to the manufacturer's specifications and documented instructions. Customer agrees not to employ or use additional attachments, features or devices on the equipment or make changes or alterations to the equipment covered hereby without the prior written consent of Vendor in each case, which consent shall not be unreasonably withheld.

10. MAINTENANCE SERVICES, EXCLUSIONS, AND REMEDIES:

If Vendor provides, at the request of the Customer, any of the services noted above, the Customer may be billed by Vendor at a rate not to exceed the Master State Prices Agreement between the Vendor and the State of Mississippi, or in the absence of such agreement at the then current time and materials rates.

C. REMEDIES: If during the period in which Vendor is providing maintenance services, Vendor is unable to maintain the equipment in good working order, Vendor will, at no additional charge, provide either an identical replacement or another product that provides equal or greater capabilities.

11. HOLD HARMLESS: To the fullest extent allowed by law, Vendor shall indemnify, defend, save and hold harmless, protect, and exonerate the Customer and the State of Mississippi, its Commissioners, Board Members, officers, employees, agents, and representatives from and against all claims, demands, liabilities, suits, actions, damages, losses, and costs of every kind and nature whatsoever, including, without limitation, court costs, investigative fees and expenses, and attorneys' fees, arising out of or caused by Vendor and/or its partners, principals, agents, employees, and/or subcontractors in the performance of or failure to perform this Agreement. In the Customer's sole discretion, Vendor may be allowed to control the defense of any such claim, suit, etc. In the event Vendor defends said claim, suit, etc., Vendor shall use legal counsel acceptable to the Customer; Vendor shall be solely liable for all reasonable costs and/or expenses associated with such defense and the Customer shall be entitled to participate in said defense. 12. ALTERATIONS, ATTACHMENTS, AND SUPPLIES:

A. If Customer makes an alteration, attaches a device or utilizes a supply item that increases the cost of services, Vendor will either propose an additional service charge or request that the equipment be returned to its standard configuration or that use of the supply item be discontinued. If, within five (5) days of such proposal or request, Customer does not remedy the problem or agree in writing to do so within a reasonable amount of time, Vendor shall have the right to terminate this Agreement as provided herein. If Vendor believes that an alteration, attachment or supply item affects the safety of Vendor personnel or equipment users, Vendor shall notify Customer of the problem and may withhold maintenance until the problem is remedied.

B. Unless Customer has obtained title to the equipment free and clear of any Vendor security interest, Customer may not remove any ownership identification tags on the equipment or allow the equipment to become fixtures to real property.

Dear Valued RJ Young Customer:

After examining the Ricoh 2238C device listed above at your location, we have found that it has been discontinued from the Manufacture. Since the internal components of the machine are no longer available we will no longer be able to keep the machine under any type of service agreement, and we can not warranty any repairs done to the machine.

We greatly appreciate the opportunity to be your Document Solutions Provider.

Subject: Gautier Police Department Copier

Sherry,

I have been talking with Scott Wilson over at the Police Department, and I just wanted to keep you posted. It seems like they had an old Lanier copier that was given to them from the utility district. We had continued to bill to the utility district for the service agreement which for the most recent year was \$1942. This total included the 8,556 color copies and 9,673 Black & White copies that were run in the previous calendar year.

However, we just received word from Ricoh that they no longer make the parts needed to repair the copier. I have cancelled the service agreement on that copier because we can no longer maintain it. In addition, Scott had asked for a quote, so I sent a quote similar to the ones that we did for the city earlier in the year. It was a new Ricoh MP C2504 on a 48 month state rental agreement with payments of \$145.10 which would include 800BW and 700 Color copies per month so they wouldn't have to worry about receiving any large overage bills for the copies. Compared to the yearly service agreement we had been providing, the total yearly outlay would be just \$1741.20- a \$200 savings each year.

I just wanted to keep you posted and make sure that I was talking to the right people. I would love to continue to do business with the city whenever these opportunities arise.

Thanks,

Scott,

I have contacted our contract management team to cancel the service contract on the copier in Criminal investigations. It was last billed to Gautier Utility District for \$1942 for the year. This total included the 8,556 color copies and 9,673 Black & White copies that were run in the previous calendar year.

As far as a new copier goes, we have done 3 other copiers for city hall this year and we went with the 4 year state rental agreement on Ricoh for each. To do that for your needs, we should do a 25 page-per-minute Ricoh MP C2504 with 2 paper trays and a cabinet. The monthly payment would be \$145.10, and this would include 800 Black & white and 700 Color copies per month. We could reconcile overage copies on a monthly, quarterly, or annual basis- whichever would work best for you. I included this volume of copies so that you should have very minimal or no overage bills. If you go over the allotted amount of copies they would be billed at \$.008/BW copy and \$.058/Color. Overall, the city would be saving roughly 17\$/month while still getting a new copier for your team.

I've attached a PDF with some information on this copier. If you have any questions or need anything else, please let me know.

Thanks,

**CITY OF GAUTIER
MEMORANDUM**

To: Paula Yancey, City Manager
From: Chassity Bilbo, Executive Assistant
Date: 08/29/2017
Subject: Authorization for the City Manager to seek assistance from Jackson County Board of Supervisors for assistance with replacing and repairing the field lights at the City of Gautier's Bacot Park Sports Facility on Ladnier Road.

REQUEST:

The Community Activities Manager requests that City Council authorize the City Manager to seek assistance from Jackson County Board of Supervisors to use the County's boom truck to replace and repair field lights at the City of Gautier's Bacot Park Sports Facility on Ladnier Road.

BACKGROUND:

Bacot Park has recently undergone drainage and electrical upgrades to enhance youth recreation and safety factors at Bacot Park. After restoring power to the park, an overall inspection was completed and found that many of the lights are in need of repair. DISCUSSION:

The Community Activities Manager contacted Jackson County Recreation Department for assistance, and was instructed to seek permission from the Jackson County Board of Supervisors for assistance.

RECOMMENDATION:

The Community Activities Manager recommends that City Council authorize the City Manager to seek assistance from Jackson County Board of Supervisors to use the County's boom truck for assistance with replacing and repairing the field lights at the City of Gautier's Bacot Park Sports Facility on Ladnier Road.

The City Council may:

1. Authorize the City Manager to seek assistance from Jackson County Board of Supervisors to use the County's boom truck to replace and repair field lights at the City of Gautier's Bacot Park Sports Facility on Ladnier Road; or
2. Not authorize the City Manager to seek assistance from Jackson County Board of Supervisors to use the County's Recreation boom truck to replace and repair field lights at the City of Gautier's Bacot Park Sports Facility on Ladnier Road.
