**CITY OF GAUTIER
MEMORANDUM**

To: City Council

From: Paula Yancey, City Manager

Date: May 29, 2018

Subject: Approval of the Agreement with MDOT for relocation of the City's water line on Hwy 57 due to the MDOT expansion of Hwy 57.

REQUEST:

The City Manager requests that the City Council approve the contract with MDOT for the relocation of the City's water line on Hwy 57 due to the MDOT expansion on Hwy 57, designated as project STP-0066-01(007); 103060-201500.

BACKGROUND:

In this agreement, MDOT has agreed to pay 54.8% of the water expenses, where the City is responsible for the remainder along with any other necessary adjustments or alterations.

DISCUSSION:

The services to be performed under this agreement are divided into two main phases of work: Preliminary & Design Engineering and Construction Engineering. Upon the advice of MDOT, the preliminary cost estimates are conservative and may most likely be less. With the assistance of Seymour Engineering we were able to get MDOT to pay approximately 54.8%.

RECOMMENDATION:

The City Manager recommends the City Council approve the contract for relocating City Utilities on Hwy 57 provided by MDOT.

The City Council may:

- 1) Approve the Contract with Seymour Engineering; or
- 2) Not approve the Contract with Seymour Engineering

2. **CONSULTANT** shall attend and administer the preconstruction conference;
3. Visits to Site and Observation of Construction: In connection with observations of the work of Contractor(s) while it is in progress:
 - a. **CONSULTANT** shall make visits to the site at intervals appropriate to the various stages of construction as **CONSULTANT** deems necessary in order to observe as an experienced and qualified design professional the progress of the various aspects of Contractor(s)' work. Based on information obtained during such visits and on such observations, **CONSULTANT** shall endeavor to determine in general if such work is proceeding in accordance with the Contract Documents and **CONSULTANT** shall keep **OWNER** informed of the progress of the work;

- b. If **OWNER** requests more extensive site representation than is described in 3.a above and Exhibit C, Task III, **CONSULTANT** will provide additional increased Resident Project Representative(s) as a Special Service;
 - c. **CONSULTANT** shall not during such visits or as a result of such observations of Contractor(s)' work in progress, supervise, direct or have control over Contractor(s)'s work nor shall **CONSULTANT** have authority over or responsibility for the means, methods, techniques, sequences or procedures of construction selected by Contractor(s), for safety precautions and programs incident to the work of Contractor(s) or for any failure of Contractor(s) to comply with laws, rules, regulations, ordinances, codes or orders applicable to Contractor(s) furnishing and performing their work. Accordingly, **CONSULTANT** can neither guarantee the performance of the construction contracts by Contractor(s) nor assume responsibility for Contractor(s)' failure to furnish and perform their work in accordance with the Contract Documents;
- 4. Defective Work: During such visits and on the basis of such observations, **CONSULTANT** shall disapprove of or reject Contractor(s)' work while it is in progress if **CONSULTANT** believes that such work will not produce a completed PROJECT that conforms generally to the Contract Documents or that it will prejudice the integrity of the design concept of the PROJECT as reflected in the Contract Documents.
 - 5. Interpretations and Clarifications: **CONSULTANT** shall issue necessary interpretations and clarifications of the Contract Documents and in connection therewith prepare work directive changes and change orders as required;
 - 6. Shop Drawings: **CONSULTANT** shall review and approve (or take other appropriate action in respect of) Shop Drawings, samples and other data which Contractor(s) are required to submit, but only for conformance with the design concept of the PROJECT. Such reviews and approvals or other action shall not extend to means, methods, techniques, sequences or procedures of construction or to safety precautions and programs incident thereto;
 - 7. Substitutes: **CONSULTANT** shall evaluate and determine the acceptability of substitute materials and equipment proposed by Contractor(s);
 - 8. Inspections and Tests: **CONSULTANT** shall have authority, as **OWNER's** representative, to require special inspection or testing of the work, and shall receive and review all certificates of inspections, testings and approvals required by laws, rules, regulations, ordinances, codes, orders or the Contract Documents (but only to determine generally that their content complies with the requirements of, and the

results certified indicate compliance with, the Contract Documents);

9. Disputes between OWNER and Contractor: **CONSULTANT** shall act as initial interpreter of the requirements of the Contract Documents and judge of the acceptability of the work thereunder and make recommendation to **OWNER** on all claims relating to the acceptability of the work or the interpretation of the requirements of the Contract Documents pertaining to the execution and progress of the work. **CONSULTANT** shall not be liable for the results of any such interpretations or recommendations rendered in good faith;
10. Applications for Payment: Based on **CONSULTANT's** on-site observations as an experienced and qualified design professional, on information provided by the Resident Project Representative and on review of applications for payment and the accompanying data and schedules:
 - a. **CONSULTANT** shall determine the amounts owing to Contractor(s) and recommend in writing payments to Contractor(s) in such amounts. Such recommendations of payment will constitute a representation to **OWNER**, based on such observations and review, that the work has progressed to the point indicated, and that, to the best of **CONSULTANT's** knowledge, information and belief, the quality of such work is generally in accordance with the Contract Documents (subject to an evaluation of such work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents and to any other qualifications stated in the recommendation). In the case of unit price work, **CONSULTANT's** recommendations of payment will include determinations of quantities and classifications of such work (subject to any subsequent adjustments allowed by the Contract Documents);
 - b. By recommending any payment, **CONSULTANT** will not thereby be deemed to have represented that exhaustive, continuous or detailed reviews or examinations have been made by **CONSULTANT** to check the quality or quantity of Contractor(s)'s work as it is furnished and performed beyond the responsibilities specifically assigned to **CONSULTANT** in this AGREEMENT and the Contract Documents. **CONSULTANT's** review of Contractor(s)' work for the purposes of recommending payments will not impose on **CONSULTANT** responsibility to supervise, direct or control such work or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident thereto or Contractor(s) compliance with laws, rules, regulations, ordinances, codes or orders applicable to their furnishing and performing the work. It will also not impose responsibility on **CONSULTANT** to make any examination to ascertain how or for what purposes any Contractor has used the moneys paid on account of the Contract Price, or to determine that title to any of the

work, materials or equipment has passed to **OWNER** free and clear of any lien, claims, security interests or encumbrances, or that there may not be other matters at issue between **OWNER** and Contractor that might affect the amount that should be paid.

11. Contractor(s)' Completion Documents: **CONSULTANT** shall receive and review maintenance and operating instructions, schedules, guarantees, bonds and certificates of inspection, tests and approvals which are to be assembled by Contractor(s) in accordance with the Contract Documents (but such review will only be to determine that their content complies with the requirements of, and in the case of certificates of inspection, tests and approvals the results certified indicate compliance with, the Contract Documents); and shall transmit them to **OWNER** with written comments;
12. Inspections: **CONSULTANT** shall conduct an inspection to determine if the work is substantially complete and a final inspection to determine if the completed work is acceptable to **OWNER** and other governing agencies so that **CONSULTANT** may recommend, in writing, final payment to Contractor(s) and may give written notice to **OWNER** and the Contractor(s) that the work is acceptable (subject to any conditions therein expressed), but any such recommendation and notice will be subject to the limitations expressed in paragraph E.10.b; and,
13. Limitation of Responsibilities: **CONSULTANT** shall not be responsible for the act or omissions of any Contractor, or of any subcontractor or supplier, or any of the Contractor(s)' or subcontractor's or supplier's agents or employees or any other persons (except **CONSULTANT**'s own employees and agents) at the site or otherwise furnishing or performing any of the Contractor(s)' work; however, nothing contained in paragraphs E.1 through E.12 inclusive, shall be construed to release **CONSULTANT** from liability for failure to properly perform duties and responsibilities assumed by **CONSULTANT** in the Contract Documents.

SECTION II - SPECIAL SERVICES

A. Services Requiring Authorization in Advance

If authorized in writing by **OWNER**, **CONSULTANT** shall accomplish such special services of the following types which are not considered normal or customary Basic Services except where specifically provided for otherwise in Exhibit C. At **OWNER**'s option, services may be provided by the **OWNER** through direct contracts with other professionals or may be provided by the **CONSULTANT**. When the **CONSULTANT** is requested to provide special services, such services may be provided by the **CONSULTANT**'s own forces or through subcontracts with other professionals; however, contracts with other professionals for special services must have the approval of

the **OWNER** before the work is initiated (**OWNER** approval of **CONSULTANT's AGREEMENT** listing subconsultants and subconsultant fees will be considered approval of subconsultant's contract.) Special services will be paid for by **OWNER** as indicated in the **AGREEMENT**, in addition to the compensation for Basic Services described herein if requested and approved in writing reflected upon Owner's minutes.

SPECIFIC PROJECT SCOPE OF SERVICES

MARTIN BLUFF ROAD SIDEWALK PROJECT

The project is located in the City of Gautier along Martin Bluff Road. The proposed improvements consist of constructing a 5-foot wide sidewalk from Martin Bluff Elementary, just north of Roy's Road, and extend north along Martin Bluff Road to Little Bend Road. The sidewalk will be 4-inches thick, except in areas where heavy loads are anticipated and where the sidewalk will cross existing gravel drives, in which case the sidewalk will be 6 inches thick. The proposed project will connect schools, churches, a golf course, numerous local businesses, trailer parks, subdivisions in the Hickory Hill area of Gautier, and as an additive alternate, the project will include sidewalks to the Buddy Davis sports complex, owned by Jackson County, on Lark Drive.

The following scope of services addresses the Michael Baker International (**CONSULTANT**) efforts required to provide final construction plans for the City of Gautier (**OWNER**) to use in bidding the project for construction.

Following is an outline showing the tasks associated with successful completion of this project:

BASIC SERVICES

- I. Project Management, Data Collection & Utilities
 1. Project Management
 2. Surveys
 3. Utility Coordination
- II. Preliminary Roadway Design
 1. Horizontal Alignments
 2. Plan Details & Cross Sections
 3. Drainage Design
- III. Final Roadway Construction Plans
 1. Final Construction Plan Design
 2. Final Pavement Marking and Traffic Signing Design Plans
 3. Erosion Control
 4. Permitting
 5. Quantities, Specifications, and Estimates
- IV. Bidding Phase Service
 1. Construction Document Distribution
 2. Conduct Pre-Bid Conference
 3. Attend Bid Opening and Bid Tabulation

EXHIBIT C

- IV. Construction Services
 - 1. Contract Administration
 - 2. As-Builts

TASK I. Project Management, Data Collection & Utilities

1. **Project Management** – **CONSULTANT** will attend a maximum of four (4) meetings at the site. These meetings will be for the purposes of coordinating with the **OWNER**, other consultants, Utility companies and any other parties pertinent to the project. Additionally, the **CONSULTANT** will prepare a one page Memo outlining the agreed upon Design Criteria for acceptance by the **OWNER**.
2. **Surveys** - **CONSULTANT** will use the services of a **Sub-Consultant** for surveys. Surveys will include the following tasks.
 - a. Provide complete topographic survey for a distance of approximately 2.4 miles along Martin Bluff Road, commencing at the intersection of Roy's Road and continuing north to Little Bend Place.
 - b. Topographic survey to include all above ground improvements
 - c. All drainage pipes shall be located and elevations, type, material, and sizes of pipes shall be provided.
 - d. Locate all structures, utilities, trees, shrubs, fences, driveways, and other encroachments within 10 feet of the existing right-of-way.
 - e. Locate all property corners and right-of-way monuments along Martin Bluff Road within the project limits.
 - f. Horizontal and Vertical coordinates shall be based on the Mississippi State Plane Coordinate System and NGVD 1998.

Should the project require the acquisition of right-of-way and/or easements, complete boundary surveys of the respective properties will be performed for the preparation of the legal descriptions and associated plats. Survey services required for the acquisition of right-of-way and easements will be considered an additional service and will require a Supplemental Agreement.

3. **Utility Coordination** – **CONSULTANT** will coordinate with local utility companies regarding the possible relocation of their respective utility lines. The costs associated with the relocation the utility lines will be determined during the design process and provided to the **OWNER**. No utility design is included in this scope of work.

EXHIBIT C

TASK II. Preliminary Design

This task addresses the work efforts required to complete preliminary roadway construction plans. The existing roadway geometry will be used as a starting point for the alignment and planimetrics. The following work items describe the elements that will be incorporated into the preliminary construction plans.

1. Horizontal Alignments

Preliminary horizontal alignments will be developed and submitted to the **OWNER** for review and approval.

2. Plan Details & Cross Sections

The preliminary plans will follow the Mississippi Department of Transportation – format for plan development consisting of the following:

- A title sheet showing a location map, and project layout.
- Quantity and Index sheet.
- Typical sections for the mainline and crossroads for each significant change in section. These sections will show dimensions, a pavement schedule, and the stations over which each section applies.
- Details, including applicable MDOT standards, and additional clarifying construction details.
- A General Inclusion Sheet of clarifying or explanatory notes.
- Plan sheets at a scale of 1"=50' horizontal showing existing conditions, existing utilities (from field survey or information received from **OWNER**), proposed sidewalk, edge of pavement, curb and gutter, medians, slope stake lines, drainage, right-of-way, and easements. Proposed horizontal geometry will also be shown.
- Traffic Control Plan.
- Drainage Layout Sheets.

3. Drainage Design

The drainage systems for the project are dictated by the projects horizontal and vertical geometry. The drainage design will include an offsite analysis of the contributing watershed necessary to determine culvert locations and sizes for the project. Additional analyses will be performed to adequately size and locate individual inlets and pipes for accepting roadway runoff. For each contributing sub-area, a structure will be identified to accept the runoff (inlet, cross-pipe, ditch, etc.). Based on accumulation of runoff, pipe sizes to carry the runoff will be determined. The location of the storm drainage system will be shown on the final roadway plan sheets including pipe and drainage structures size, locations, type and elevations.

EXHIBIT C

TASK III. Final Construction Plans

1. Final Construction Plan Design

Comments received from the review of the preliminary plans will be incorporated into the design and final construction plans will be developed. Cut and fill earthwork volumes will be identified on the plans.

2. Final Marking and Traffic Signing Design Plans

Final pavement marking and traffic signing plans will be prepared at scale of 1"=50', unless otherwise agreed upon, showing locations and types of signs, lane lines, stop bars, cross walks, and other appropriate markings. The plans will include dimensions sufficient for field layout. Standard MUTCD and MDOT details will be incorporated into the plans.

3. Erosion Control

CONSULTANT will prepare the appropriate erosion control plans with all necessary details to comply with state and local NPDES permit requirements.

4. Permitting

The **CONSULTANT** shall prepare the NPDES Stormwater Permit(s) packages for the **OWNER** to submit to the Mississippi Department of Environmental Quality (MDEQ) for approval. It is assumed that the **OWNER** will pay for any necessary permit application fees.

Based on a preliminary review of the project area, it is anticipated that Army Corps of Engineers, Section 404 permit will be required. To facilitate the permitting requirement, we propose to conduct a **wetland and other waters of the US delineation** and prepare the **permit application** and accompanying documentation such as the **delineation report, WRAP analysis, and mitigation plan**. To assist with US Fish and Wildlife clearance, that will be needed during review of the 404 permit, we also propose to complete a **Threatened and Endangered Species (T&E) survey and report**. While clearance from Mississippi Department of Archives and History will also be required, it is not expected that a cultural resources survey will be necessary. If it is determined that a cultural resources survey is necessary, then those services can be negotiated at a later time. MDOT Standard Form, ENV-160 will be prepared to document the environmental aspects of the project.

The City relies upon CONTRACTOR's Warranty and shall treat the CONTRACTOR as having a special fiduciary duty to the City in this respect due to potential for environmental, third party, and other regulatory liabilities which may attend this Contract, including but not limited to regulatory criminal responsibility. In reliance on CONTRACTOR's Warranty, the City reserves to itself the right to terminate the Contract, without further obligation upon the City and without further recourse or remedy for the CONTRACTOR except that the City shall duly pay CONTRACTOR for work or services performed to date of termination, should the City determine, following award of the Contract that CONTRACTOR failed to reveal and explain to the City's satisfaction any such matters having regulatory or criminal import or implications.

CITY OF GAUTIER NATIONAL SAFE BOATING WEEK PROCLAMATION

The City of Gautier is blessed with beautiful waterways that offer year-round opportunities to enjoy boating. National Safe Boating Week in May focuses on life-saving tips for recreational boaters.

Every boater should wear a U.S. Coast Guard approved life jacket at all times while boating. Drowning remains the number one cause of death for recreational boaters each year, and the majority of drowning victims in boating accidents are not wearing a life jacket. Safe and responsible boating includes never operating a boat while under the influence of drugs or alcohol and knowing basic navigation rules.

WHEREAS, the Coast Guard Auxiliary is the voluntary civilian component of the United States Coast Guard chartered by Congress in 1939 and dedicated to boating safety; and

WHEREAS, Flotilla 3-08, as the local unit of the United States Coast Guard Auxiliary, Division 3 of the Eighth Coast Guard District, Coastal Region, is committed to promoting safe boating by teaching safe boating courses, assisting with Coast Guard missions in our area, and performing vessel safety exams; and

WHEREAS, the vast majority of these accidents are caused by human error or poor judgment and not by the boat, equipment, or environmental factors; and

WHEREAS, a significant number of boaters who lose their lives by drowning each year would be alive today had they worn their life jackets; and

NOW, THEREFORE, I, Mayor Phil Torjusen, do hereby support the goals of the North American Safe Boating Campaign and proclaim May 19 – 25, 2018 as National Safe Boating Week. Our safety watchwords when referring to life jackets are “Wear It!”

IN WITNESS THEREOF, I urge all those who boat to “Wear It!” and practice safe boating habits.

Given under my signature and the seal of the City of Gautier this 15th, day of May, 2018.

Phil Torjusen, Mayor

Subject: Special Exception Permit for a Body Art Studio and Collectibles Boutique at PID#82435010.050 3880 Gautier Vancleave RD Suite 2 (GPC Case No. 18-05-SE)

REQUEST:

The Planning Department has received a request from William E. Morgan of Studio 613 for a Special Exception Permit that would allow a Tattoo Parlor in a C-2, Community Commercial Zoning District, at 3880 Gautier Vancleave Rd Suite 2 PID#82435010.050. The application fee of \$250 was paid on March 20, 2018. All public notice requirements have been met.

BACKGROUND:

The request property is zoned C-2 Community Commercial.

1. Location: 3880 Gautier Vancleave RD Suite 2 (See Exhibit A)
2. General features of the proposed project:
Total Building Area: 1000square feet
Site Size: 1.87 Acres
3. Potable Water and Wastewater Services: Existing from City
4. Current Zoning (See Exhibit B): C-2 Community Commercial.
5. Current Surrounding Zoning (See Exhibit B): C-2 Community Commercial, TC Town Center, and R-1 Low Density Single Family.
6. Current Surrounding Existing Land Use (See Exhibit C): Low Density Residential, Town Center, and Community Commercial.
7. Comprehensive Plan Future Land Use Designation (See Exhibit D): Low Impact Commercial

DISCUSSION:

The following addresses the review criteria for a Special Exception outlined in Section 4.16.4 of the UDO.

1. Explain how a literal interpretation of the City of Gautier's Unified Development Ordinance would deprive the applicant of rights commonly enjoyed by others of the district in which the property is located, and would work unnecessary hardship upon the applicant?

Applicant: The Unified Development Ordinance defines business locations by Zone. The property in question is located in a strip mall at 3880 Gautier Vancleave Road. This property is Zoned C-2, Community Commercial. Literal interpretation of the Ordinance would prohibit establishment of an upscale body art and collectibles boutique, as offered by Studio 613 Artisans.

Staff Finding: The City of Gautier UDO does not list an upscale body art studio as an allowable use in a C-2 District. The UDO defines this use as a "Tattoo Parlor". A Tattoo Parlor is allowed with a Conditional Use in all other Commercially Zoned Districts. Planning Staff feels that a C-1 district is a more stringent commercial district than a C-2 district as it pertains to uses, density, and intensity. Planning Staff finds that the proposed use is comparable to other uses allowed in the C-2 Commercial District, therefore, denying the proposed use may deprive the applicant of the rights commonly enjoyed by others in all other Commercial Districts.

2. Explain how the requested Special Exception will be in harmony with the purpose of the City of Gautier's Unified Development Ordinance and will not be injurious to the neighborhood or the general welfare?

Applicant Response: The Special Exception will be in harmony with the purpose and intent of the ordinance by offering a location within the immediate Gautier community offering one-of-a-kind artwork and collectibles, as well as elegant body art, either temporary or permanent in nature. All permanent art is limited to adults 18 and older. Studio 613 artists promote awareness of health considerations in safe body art and piercings, as well as providing counseling in selecting appropriate artwork and body locations to not hinder future employment opportunities. The salon work ethic includes refusal to perform questionable or unsavory body art. Henna art in sepia tones are offered as temporary body art, with all natural ingredients.

Staff Finding: This specific proposed use is allowed by right in all other commercially zoned districts. Staff finds that it will be compatible with other businesses in this district due to the fact that it is comparable in size, density, and intensity with other existing businesses in this area.

3. Explain how the special circumstances requiring the proposed Special Exception are not results of actions of the applicant.

Applicant Response: The special circumstances are not results of any action of the applicant. The studio has not previously sought to establish itself in the Gautier community, nor previously been denied this opportunity. The special circumstances directly result from the optimum site on Gautier Vancleave Road. The site is a prime location to draw customers from local businesses (to include Ingalls Shipbuilding), local homeowners, and MGCCC students with the intent to spend more money locally than in Ocean Springs or nearby cities.

Staff Finding: There is no evidence to indicate that special circumstances requiring the Special Exception were results of the action of the applicant. Staff finds that the Special Exception will not negatively affect the surrounding businesses, or cause a detriment to the surrounding properties. Staff believes that since Tattoo Parlors are permitted with a Major Conditional Use in a C-1, C-3, and Town Center district, the omission of them in a C-2 Zoning District could have been an oversight.

DETERMINATION OF APPLICABLE LAW:

1. The UDO defines a Special Exception as a relaxation of the terms of the Unified Development Ordinance where such an exception will not be contrary to the public interest, and where, owing to conditions peculiar to the property, a literal enforcement of the ordinance would result in undue **hardship**. (See UDO Article II “Definitions” for the definition of “Hardship”). Special Exceptions are necessary when an applicant seeks to establish or expand a use not ordinarily permitted in a specific zoning district. “Special Exceptions” are not transferable from one (1) owner of land to another.
2. Special Exception requires a public hearing before the Planning Commission and approval by the City Council (Section 4.14 of the UDO).
3. Once an application for a Special Exception is submitted to the Planning Department, the procedures outlined in UDO Section 4.14.1 will be followed. At the appropriate time, The Planning Commission will conduct a public hearing to determine whether the applicant meets all relevant criteria, and make a recommendation to City Council pursuant to UDO Section 4.14.4. City Council, pursuant to UDO Section 4.14.4(C), will then consider the matter at its next regularly scheduled meeting and approve or deny the Special Exception.
4. A Special Exception is required for uses not ordinarily permitted in a specific zoning district. Special Exceptions are not permitted by right, and may only be granted when certain criteria are established. (4.16.4)

5. Special Exceptions do not run with the land, and may be revoked by the Planning Department if any of the following circumstances are discovered:
 - A. The property changes ownership
 - B. The property is being utilized in a manner not permitted under the zoning regulations or the special exception; or
 - C. The property ceases to be used for the purpose allowed in the Special Exception for a period of one hundred eighty (180) days during the existence of the Special Exception.

RECOMMENDATIONS:

Staff finds that if City Council establishes that an unnecessary hardship exists, we recommend approval of the proposed Special Exception.

Planning Commissions recommends approval of the proposed Special Exception with no conditions.

CONCLUSION:

The City Council may:

1. Approve the Special Exception; or
2. Deny the Special Exception.

The application fee of \$250 was paid on March 20, 2018. All public notice requirements have been met.

BACKGROUND:

The request property is zoned C-2 Community Commercial.

1. Location: 3880 Gautier Vancleave RD Suite 2 (See Exhibit A)
2. General features of the proposed project:
Total Building Area: 1000square feet
Site Size: 1.87 Acres
3. Potable Water and Wastewater Services: Existing from City

7. Comprehensive Plan Future Land Use Designation (See Exhibit D): Low Impact Commercial

DISCUSSION:

The following addresses the review criteria for a Special Exception outlined in Section 4.16.4 of the UDO.

1. Explain how a literal interpretation of the City of Gautier's Unified Development Ordinance would deprive the applicant of rights commonly enjoyed by others of the district in which the property is located, and would work unnecessary hardship upon the applicant?

Applicant: The Unified Development Ordinance defines business locations by Zone. The property in question is located in a strip mall at 3880 Gautier Vancleave Road. This property is Zoned C-2, Community Commercial. Literal interpretation of the Ordinance would prohibit establishment of an upscale body art and collectibles boutique, as offered by Studio 613 Artisans.

Staff Finding: The City of Gautier UDO does not list an upscale body art studio as an allowable use in a C-2 District. The UDO defines this use as a "Tattoo Parlor". A Tattoo Parlor is allowed with a Conditional Use in all other Commercially Zoned Districts. Planning Staff feels that a C-1 district is a more stringent commercial district than a C-2 district as it pertains to uses, density, and intensity. Planning Staff finds that the proposed use is comparable to other uses allowed in the C-2 Commercial District, therefore, denying the proposed use would deprive the applicant of the rights commonly enjoyed by others in all other Commercial Districts.

2. Explain how the requested Special Exception will be in harmony with the purpose of the City of Gautier's Unified Development Ordinance and will not be injurious to the neighborhood or the general welfare?

Applicant Response: The Special Exception will be in harmony with the purpose and intent of the ordinance by offering a location within the immediate Gautier community offering one-of-a-kind artwork and collectibles, as well as elegant body art, either temporary or permanent in nature. All permanent art is limited to adults 18 and older. Studio 613 artists promote awareness of health considerations in safe body art and piercings, as well as providing counseling in selecting appropriate artwork and body locations to not hinder future employment opportunities. The salon work ethic includes refusal to perform questionable or unsavory body art. Henna art in sepia tones are offered as temporary body art, with all natural ingredients.

Staff Finding: This specific proposed use is allowed by right in all other commercially zoned districts. Staff finds that it will be compatible with other businesses in this district due to the fact that it is comparable in size, density, and intensity with other existing businesses in this area..

3. Explain how the special circumstances requiring the proposed Special Exception are not results of actions of the applicant.

Applicant Response: The special circumstances are not results of any action of the applicant. The studio has not previously sought to establish itself in the Gautier community, nor previously been denied this opportunity. The special circumstances directly result from the optimum site on Gautier Vancleave Road. The site is a prime location to draw customers from local businesses (to include Ingalls Shipbuilding), local homeowners, and MGCCC students with the intent to spend more money locally than in Ocean Springs or nearby cities.

Staff Finding: There is no evidence to indicate that special circumstances requiring the Special Exception were results of the action of the applicant. Staff finds that the Special Exception will not negatively affect the surrounding businesses, or cause a detriment to the surrounding properties. Staff believes that since Tattoo Parlors are permitted with a Major Conditional Use in a C-1, C-3, and Town Center district, the omission of them in a C-2 Zoning District could have been an oversight.

DETERMINATION OF APPLICABLE LAW:

1. The UDO defines a Special Exception as a relaxation of the terms of the Unified Development Ordinance where such an exception will not be contrary to the public interest, and where, owing to conditions peculiar to the property, a literal enforcement of the ordinance would result in undue hardship. Special Exceptions are necessary when an applicant seeks to establish or expand a use not ordinarily permitted in a specific zoning district. "Special Exceptions" are not transferable from one (1) owner of land to another.
2. Special Exception requires a public hearing before the Planning Commission and approval by the City Council (Section 4.14 of the UDO).
3. Once an application for a Special Exception is submitted to the Planning Department, the procedures outlined in UDO Section 4.14.1 will be followed. At the appropriate time, The Planning Commission will conduct a public hearing to determine whether the applicant meets all relevant criteria, and make a recommendation to City Council pursuant to UDO Section 4.14.4. City Council, pursuant to UDO Section 4.14.4(C), will then consider the matter at its next regularly scheduled meeting and approve or deny the Special Exception.
4. A Special Exception is required for uses not ordinarily permitted in a specific zoning district. Special Exceptions are not permitted by right, and may only be granted

when certain criteria are established. (4.16.4)

5. Special Exceptions do not run with the land, and may be revoked by the Planning Department if any of the following circumstances are discovered:
 - A. The property changes ownership
 - B. The property is being utilized in a manner not permitted under the zoning regulations or the special exception; or
 - C. The property ceases to be used for the purpose allowed in the Special Exception for a period of one hundred eighty (180) days during the existence of the Special Exception.

RECOMMENDATION AND CONCLUSION:

Staff finds that the Special Exception proposed use will be compatible and harmonious with the C-2 District and recommends approval with no specific proposed conditions.

- B. Explain how the requested Special Exception will be in harmony with the purpose and intent of the City of Gautier's Unified Development Ordinance and will not be injurious to the neighborhood or the general welfare?

Criteria for Approval

Special Exception

- A. Explain how a literal interpretation of the City of Gautier's Unified Development Ordinance would deprive the applicant of rights commonly enjoyed by others of the district in which the property is located, and would work unnecessary hardship upon the applicant.

The Unified Development Ordinance defines business locations by Zone. The property in question is located in the strip mall, 3880 Gautier-Vancleave Road. This property is Zoned C-2, Community Commercial District. Literal interpretation of the Ordinance would prohibit establishment of an upscale body art and collectibles boutique, as offered by Studio 613 artisans.

- B. Explain how the requested Special Exception will be in harmony with the purpose and intent of the City of Gautier's Unified Development Ordinance and will not be injurious to the neighborhood or the general welfare?

The Special Exception will be in harmony with the purpose and intent of the ordinance by offering a location within the immediate Gautier Community offering one-of-a-kind artwork and collectibles, as well as elegant body art, either temporary or permanent in nature. All permanent art is limited to adults 18 and older. Studio 613 artists promote awareness of health considerations in safe body art and piercings, as well as providing guidance and counseling in selecting appropriate artwork and body locations to not hinder future employment opportunities. The salon work ethic includes refusal to perform questionable or unsavory body art. Henna art in sepia tones are offered as temporary body art, with all natural ingredients.

Location of Studio 613 in the 3880 Gautier-Vancleave Road location will not adversely affect adjacent properties, as the business premise does not conflict with the existing shops. It is anticipated that additional business brought in through Studio 613 could increase traffic to the existing nail salon, barber shop, massage parlor, etc.

This studio has the potential to keep body art enthusiasts shopping local rather than travelling out of Gautier, as well as drawing business from other communities.

- C. Explain how the special circumstances requiring the proposed Special Exception are not results of actions of the applicant?

The special circumstances are not results of any action of the applicant. The studio has not previously sought to establish itself in the Gautier community, nor previously been denied this opportunity. The special circumstances directly result from the optimum site on Gautier-Vancleave Road. The site is a prime location to draw customers from local businesses (to include Ingalls Shipbuilding), local

homeowners and MGCCC students with the intent to spend more money locally than in Ocean Springs or nearby cities..

Studio 613's Mission Statement: To promote public education and awareness in understanding the history of body art, and to provide guidance and counseling prior to design application through the assistance of experienced Artisans in the selection of appropriate temporary or permanent artwork as well as body locations to not hinder current employment or future opportunities.

Dear Councilman Vaughan,

My name is Janine Peyton. I am the PTO President at Gautier Elementary School. We have been busy planning the "End of the Year Celebration" for Gautier Elementary's Faculty and Staff. They have worked extremely hard and we would like to express our appreciation, which is well deserved. Rarely, are they afforded the opportunity to come together as colleagues and enjoy the camaraderie of themselves and others. We would like the pleasure to oblige them.

We are in our final stages of planning; however, we have been faced with inevitable, locating a venue. I am writing this letter hoping that you would be able to help us in this endeavor. We would like to host this event at the Gautier Senior Center if possible. We have tried other locations, however, they were unavailable. Your help on this matter is truly appreciated. The event is scheduled for May 23, 2018. If we are able to acquire the building, we will need to get in at 12:00 noon in order to decorate. Thank you in advance for your help and immediate attention to this matter.

Sincerely,

Janine Peyton

ACT® Work Ready Communities

We all have a stake in making our country more competitive. Now we have a framework for closing the skills gap that threatens our economy.

Change starts at the grassroots level by providing a community-based framework that:

- Links workforce development to education
- Aligns with the economic development needs of communities, regions, and states
- Matches individuals to jobs based on skill levels

The foundation for this framework begins at the county level and spans the current, transitioning, and future workforce. The key component: individuals earning and employers recognizing the ACT® WorkKeys® National Career Readiness Certificate®. The ACT® WorkKeys® NCRC® is a portable, industry-recognized credential that identifies an individual's ACT® WorkKeys® skill levels in workplace documents, applied math, and graphic literacy. These essential foundational skills are required for virtually any job.

Many groups benefit when their states, counties, or regions join the ACT Work Ready Communities initiative.

- **Businesses and industries** learn exactly what foundational skills are needed for a productive workforce and can easily communicate their needs to job seekers
- **Individuals** understand what skills employers require and how to prepare for career success
- **Policymakers** are able to measure skills gaps in a timely manner at the national, state, and local levels
- **Educators** help close skills gaps using stackable, industry-recognized credentials integrated into career pathways
- **Economic developers** have an on-demand reporting tool to document—and market—the quality of the local workforce

ACT® Work Ready Communities

workreadycommunities.org

Partnerships at all levels are essential for success

PARTNERS	CAPABILITIES
ACT—the nonprofit organization with a track record of producing assessments and credentials	Delivers the process for involving states and counties; the assessment and certification tools; and rich, county-specific workforce skill data updated each month
State ACT Work Ready Communities team	A public-private team of chambers of commerce, business leaders, and education leaders whose purpose is to build a service delivery infrastructure and engage business leaders statewide while implementing processes at the county level
Local ACT Work Ready Communities team	A county-level or regional team that mirrors the state team in composition. This team uses the ACT approach to solve local workforce issues through attaining and maintaining a certified ACT Work Ready Communities status

How do these partners come together to create change at the county level? ACT partners with communities and states to build this framework through the ACT Work Ready Communities Boot Camp (workreadycommunities.org/bootcamp). ACT accepts applications from states, regions, and communities to participate in the initiative.

By working together and adopting the common criteria (workreadycommunities.org/resources/Criteria_for_Certification.pdf) for a community to be certified as “work ready,” states, regions, and counties are building a sustainable infrastructure to close skills gaps and attain a competitive advantage. The data-driven approach toward achieving certification as an ACT Work Ready Community allows an area to demonstrate they have a skilled workforce that is valued by local employers. The area also benefits by linking education and workforce development, achieving alignment to economic development, and matching people to jobs.

It’s a formula for economic success that benefits *all* stakeholders.

Chapter 15. Emergency Management and Civil Defense

Article 1. Emergency Management Law (Refs & Annos)

Miss. Code Ann. § 33-15-17

§ 33-15-17. Emergency management local organization

Currentness

(a) Each county and municipality, or counties and the municipalities therein acting jointly, or two (2) or more counties acting jointly, of this state are hereby authorized and directed to establish a local organization for emergency management in accordance with the state emergency management plan and program, if required and authorized so to do by such state emergency management plan. Each local organization for emergency management shall have a director who shall be appointed by the governing body of the political subdivision, or political subdivisions acting jointly, and who shall have direct responsibility for the organization, administration and operation of such local organization for emergency management, subject to the direction and control of such governing body. Each local organization for emergency management shall perform emergency management functions within the territorial limits of the political subdivision within which it is organized, and, in addition, shall conduct such functions outside of such territorial limits as may be required pursuant to the provisions of the state emergency management plan. Each county shall develop an emergency management plan and program that is coordinated and consistent with the State Comprehensive Emergency Management Plan and program. Counties that are part of an interjurisdictional emergency management agreement entered into pursuant to this section shall cooperatively develop an emergency management plan and program that is coordinated and consistent with the state emergency management plan and program.

(b) In carrying out the provisions of this article each county and municipality, or the two (2) acting jointly, or two (2) or more counties acting jointly, where there is joint organization, in which any disaster as described in Section 33-15-5 occurs, shall have the power to enter into contracts and incur obligations necessary to combat such disaster, protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. Each county and municipality is authorized to exercise the powers vested under this section in the light of the exigencies of the extreme emergency situation without regard to time-consuming procedures and formalities prescribed by law pertaining to the performance of public work, entering into contracts, the incurring of obligations, the employment of temporary workers, the rental of equipment, the purchase of supplies and materials, the levying of taxes and the appropriation and expenditure of public funds.

(c) Each county and each municipality, or two (2) or more counties acting jointly, shall have the power and authority:

(1) To appropriate and expend funds, make contracts, obtain and distribute equipment, materials, and supplies for emergency management purposes; provide for the health and safety of persons and property, including emergency assistance to the victims of any enemy attack or man-made, technological or natural disasters; and to direct and coordinate

the development of emergency management plans and programs in accordance with the policies and plans set by the federal and state emergency management agencies;

(2) To appoint, employ, remove, or provide, with or without compensation, air raid wardens, rescue teams, auxiliary fire and police personnel, and other emergency management workers;

(3) To establish, as necessary, a primary and one or more secondary emergency operating centers to provide continuity of government, and direction and control of emergency operation during an emergency;

(4) To donate public funds, supplies, labor and equipment to assist any governmental entity in a county or municipality in which a disaster as described in Section 33-15-5 occurs;

(5) Subject to the order of the Governor, or the chief executive of the political subdivision, to assign and make available for duty, the employees, property or equipment of the subdivision relating to fire fighting, engineering, rescue, health, medical and related services, police, transportation, construction, and similar items or services for emergency management purposes either within or outside of the limits of the subdivision;

(6) Subject to the order of the chief executive of the county or municipality or the Governor to order the evacuation of any area subject to an impending or existing enemy attack or man-made, technological or natural disaster;

(7) Subject to the order of the chief executive of the county or municipality or the Governor, to control or restrict egress, ingress and movement within the disaster area to the degree necessary to facilitate the protection of life and property;

(8) To enter into mutual aid agreements in the manner authorized by Section 33-15-19.

(d) A local emergency as defined in Section 33-15-5 may be proclaimed by the mayor or governing body of a municipality or the governing body of a county. In the event a local emergency is proclaimed by the mayor of a municipality, the governing body of such municipality shall review and approve or disapprove the need for continuing the local emergency at its first regular meeting following such proclamation or at a special meeting legally called for such review. Thereafter, the governing body shall review the need for continuing the local emergency at least every thirty (30) days until such local emergency is terminated, and shall proclaim the termination of such local emergency at the earliest possible date that conditions warrant. During a local emergency, the governing body of a political subdivision may promulgate orders and regulations necessary to provide for the protection of life and property, including orders or regulations imposing a curfew within designated boundaries where necessary to preserve the public order and safety. In general

Pursuant to Section **33-15-17**, the emergency management director is subject to the direct supervision and control of the board of supervisors. The board of supervisors may not be involved in the day-to-day operations of the county administrator or county road manager. All department heads and employees must comply with an established grievance procedure of the board of supervisors, this would include a procedure whereby the county administrator presents all appeals of decisions of the grievance committee to the board of supervisors. Op.Atty.Gen. No. 2016-00329, Blackmon, August 5, 2016, 2016 WL 4965380.

The position of director of emergency management under § **33-15-17** is not a position to which appointment of a relation is prohibited by § 25-1-53, the Nepotism Statute. Op.Atty.Gen. Langston, Nov. 9, 1989.

Powers of board of supervisors

Section **33-15-17** makes it clear that the Civil Defense Director exercises power under the control and direction of the governing authority that hired the director; and, in the absence of a stated term in a contract the person appointed as Civil Defense Director serves until removed by the appointing authority. In effect, the Director serves at the will and pleasure of the board of supervisors and may be removed in their discretion. Op.Atty.Gen. No. 93-0173, Jones, April 7, 1993.

Section **33-15-17** authorizes the County Board of Supervisors, under its emergency management powers, to regulate the mooring of vessels inside the corporate limits of municipalities located within the county. Op.Atty.Gen. No. 94-0361, Meadows, July 15, 1994.

Under Section **33-15-17** a county board of supervisors may impose a curfew that could include all municipalities within the county, without the municipalities having to adopt their own curfew. Op.Atty.Gen. No. 94-0268, Smith, June 2, 1994.

Construction with other laws

Despite the declaration of emergency after Hurricane Katrina, the Harrison County Board of Supervisors does not have authority to exercise discretion in the awarding of compensation increases to the Tax Assessor and/or his deputies, where the language of Section 27-3-52 is mandatory, and orders and regulations under Section **33-15-17** may only be issued to protect life and property. Op.Atty.Gen. No. 2005-0551, Meadows, November 14, 2005, 2005 WL 3775659.

Conflict of interest

Mississippi Const. Art. 4, § 109 and § 25-4-105(2) prohibit a board of supervisors from authorizing an employment contract with a member of the board of supervisors for the position of compensated or uncompensated emergency management director as authorized in § 33-15-17(a). Op.Miss. Ethics Comm. No. 02-019-E

Immunity

In a state of emergency due to a crisis in medical care, and declared by the Governor, the state and the county and its board of supervisors, employees and agents are entitled to full immunity as provided by Section 33-15-21. Those individuals not covered by the Emergency Management Act, arguably such as the doctors, would not be entitled to the protection of full immunity. In such an emergency, the provisions of Sections 33-15-17(b) and 33-15-11(b)(16) may possibly be invoked to provide such immunity. Op.Atty.Gen. No. 2003-0054, Meadows, January 30, 2003.

Equipment rental

In light of the declaration of emergency relating to Hurricane Katrina and the authority contained in Section 33-15-17(b), the City of Long Beach is authorized to pay city firemen for the use of their privately owned four wheelers in accordance with rates approved by FEMA and the governing authorities of the municipality. **CITY OF GAUTIER
MEMORANDUM**

To: Paula Yancey, City Manager
From: April Havens, Grants Administrator
Date: 05/30/2018
Subject: Resolution Authorizing the Filing of an Application for a Transportation Improvement Program Project – Martin Bluff Bike Lane

REQUEST:

The Grants and Projects Department requests that the City of Gautier adopt a resolution authorizing the filing of a bike/pedestrian application to the Gulf Regional Planning Commission for a Transportation Improvement Program (TIP) project to add a bike lane to a portion of Martin Bluff Road.

BACKGROUND:

Each spring, the GRPC, which serves as the Mississippi Gulf Coast's Metropolitan Planning Organization, issues a call for new Transportation Improvement Program (TIP) projects. There are three application options: a Surface Transportation Block Grant application, a Transportation Alternatives Program (Bike-Pedestrian-Transit) application, or a Transportation Study application.

DISCUSSION:

The proposed project would be filed under a Transportation Alternatives Program (Bike-Pedestrian-Transit) application. The project would add 4,950 feet of a 5-foot asphalt bike lane, contiguous to Martin Bluff Road. It would run from Roys Road to approximately Interstate 10. The bike path would tie into the existing Martin Bluff Road widening project.

RECOMMENDATION:

City staff recommends that City Council adopt a resolution authorizing the filing of an application for Bike/Pedestrian funding as outlined above and approve the Transportation Improvement Program Project Resolution as attached.

The City Council may:

- 1) Adopt the resolution and application for funding as presented; or
- 2) Not approve the application for funding as presented.
